Caution : You are about to purchase a Product that is not simple and may be difficult to understand.

WHAT IS THIS PRODUCT ?

Type

This Product is a compartment of AXIOM LUX, an open-ended umbrella Fund, organized as an investment company with limited liability and with variable capital (a "SICAV") under Luxembourg law.

Term

The Product has an investment horizon of at least 5 years.

Objectives

The objective of this Product is to achieve, over a minimum 5-year investment horizon, a return (net of management fees) similar to or greater than that of its benchmark (Stoxx Europe 600 Banks Net Return) (the "Benchmark"). The Product considers companies with good Environmental, Social and Governance (ESG) or climate profiles.

The Investment Manager's investment process aims to take advantage of major opportunities on the European bank and insurance stock market by selecting securities with a growth potential in line with the investment objective.

In order to optimize the portfolio's return, the investment process is based on: a top down" approach taking into account economic conditions (key interest rates, long term rates, money market rates, inflation, European and global economic growth, etc.), banking and insurance regulations; a "bottom up" approach.

The Product is constantly exposed to equity markets. More specifically, a minimum 75% of the Product net assets will be constantly invested in issuers from the financial industry of any market capitalisation domiciled in any EU member state as well Norway and Iceland, and subject to corporation tax (IS), or in shares or units from UCITS eligible for the PEA (equity savings scheme).

For exposure or hedging of the portfolio, the Product may intervene in Luxembourg and / or foreign regulated futures markets and use OTC financial instruments to hedge currency risk. These instruments may not exceed 100%.

Since part of the assets may be denominated in currencies other than the base currency, the Product may be exposed to currency risk.

The tools used to consider ESG factors consist of :

- Exclusion filters : They are used to exclude companies involved in forbidden activities, which are covered through the Management Company thematic and sectoral policies and related exclusion list.

- Controversies monitoring : The Management Company analyzes firms' exposure to litigation risks arising from torts caused to consumers and to business ethics controversies.

- ESG screening : The ESG data is sourced from an external provider. The criteria and related weighting varies depending on the sector.

- Axiom's Climate Readiness Score : The ACRS is a proprietary methodology developed to identify best-in-class firms addressing the challenges that climate change and the energy transition pose to their core business. The ACRS uses both quantitative and qualitative analysis to assess financial institutions' climate performance based on three pillars: Corporate engagement / Climate risk and opportunities management / Contribution to the low-carbon transition.

While this Product promotes environmental characteristics within the meaning of Article 8 of the SFDR.

More information on the ESG data used is disclosed in our responsible investment policy, which can be found at the following link: <https://axiom-ai.com/web/data/documentation/Responsible-InvestmentPolicy.pdf>.

Intended Retail Investor

All investors

Practical information

Depositary : CACEIS Bank, Luxembourg Branch

WHAT ARE THE RISKS AND WHAT COULD I GET IN RETURN ?

Risk Indicator

The risk indicator assumes you keep the Product until maturity end of the recommended holding period (5 years).

The actual risk can vary significantly if you cash in at an early stage and you may get back less.

The figures do not take into account your personal tax situation, which may also affect how much you get back. The summary risk indicator is a guide to the level of risk of this Product compared to other products. It shows how likely it is that the Product will lose money because of movements in the markets or because we are not able to pay you.

The level 6 risk and reward indicator reflects the Product's overall exposure to interest-rate markets through high yield, speculative securities, which offer high yields in compensation for a higher risk of default.

Significant risk(s) for the Product not taken into account in this indicator include the following:

- **Risk related to the use of financial futures instruments (IFT):** As the Product, may invest in derivatives, the net asset value may fall more significantly than the markets and financial instruments underlying these products. The occurrence of this risk may lead to a reduction in the net asset value of the Product.
- **Equity risk:** Due to its investment objective, this Product is exposed to equity risk. Therefore, its value may decrease when the equity market declines, especially when prices of financial stocks decrease.
- **Liquidity risk:** Liquidity risk exists when particular investments are difficult to purchase or sell. This can reduce the Product's returns because the Product may be unable to transact at advantageous times or prices. This can be the result of shocks of unprecedented intensity and severity such as but not limited to pandemics and natural disasters.

For more information on risks, please refer to the prospectus of the Product.

Performance Scenarios

The figures shown include all the costs of the Product itself, but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.

What you will get from this Product depends on future market performance. Market developments in the future are uncertain and cannot be accurately predicted.

The unfavourable, moderate, and favourable scenarios shown are illustrations using the worst, average, and best performance of the Product over the last 10 years. Markets could develop very differently in the future.

The stress scenario shows what you might get back in extreme market circumstances.

Investment EUR 10,000

Scenarios		If you exit after 1 year	If you exit after 5 years (recommended holding period)
Stress scenario	What you might get back after costs	EUR 3,940	EUR 960
	Average return each year	-60.6%	-37.4%
Unfavourable scenario	What you might get back after costs	EUR 5,960	EUR 4,600
	Average return each year	-40.4%	-14.4%
Moderate scenario	What you might get back after costs	EUR 9,840	EUR 9,270
	Average return each year	-1.6%	-1.5%
Favourable scenario	What you might get back after costs	EUR 21,460	EUR 15,510
	Average return each year	114.6%	9.2%

This table shows the money you could get back over the recommended holding period under different scenarios, assuming that you invest EUR 10,000.

WHAT HAPPENS IF THE MANUFACTURER IS UNABLE TO PAY OUT ?

You may face a financial loss should the Manufacturer or the Product's depository prove to be unable to pay you out. There is no compensation or guarantee scheme in place which may offset, all or any of, this loss.

WHAT ARE THE COSTS ?

Costs over time

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs.

The amounts shown here are the cumulative costs of the Product itself, for the different holding periods. They include potential early exit penalties. The figures assume you are invest EUR 10,000. The figures are estimates and may change in the future.

The person advising on or selling you this Product may charge you other costs. If so, this person will provide you with information about these costs and how they affect your investment.

Investment EUR 10,000	If you exit after 1 year	If you exit after 5 year (recommended holding period)
Total costs	EUR 750	EUR 2,240
Impact on return (RIY) per year	7.5%	4.4%

Composition of Costs

Investment EUR 10,000 and annual cost impact if you exit after 1 year

One-off costs	Entry costs	The impact of the costs you pay when entering your investment. This is the maximum you will pay and you could pay less.	2.00%	EUR 200
	Exit costs	The impact of the costs of exiting your investment when it matures. This is the maximum you will pay and you could pay less.	2.00%	EUR 200
	Conversion fees	If applicable. Please refer to the conversion sections of the prospectus for applicable situations and conditions.	none	EUR 0
Recurring costs (taken each year)	Management fees and other administrative or operating costs	The impact of the costs that we take each year for managing this Product.	1.34%	EUR 135
	Portfolio transaction costs	The impact of the costs of us buying and selling underlying investments for this Product.	2.12%	EUR 212
Incidental costs	Performance fees	20% (All taxes included) maximum of the Product's annual performance beyond the performance of the Benchmarks.	0.12%	EUR 12

This table shows the impact the different costs have on the investment return you might get back at the recommended holding period and the meaning of the different cost categories.

HOW LONG SHOULD I HOLD IT AND CAN I TAKE THE MONEY OUT EARLY ?

Recommended holding period : 5 years

This Product is designed for longer term investments ; you should be prepared to stay invested for at least five years.

Share subscription and redemption orders can be placed at any time and are centralised no later than noon on every valuation day and executed daily.

HOW CAN I COMPLAIN ?

Pursuant to Article 313-8 of the AMF general regulation, information on the complaint handling procedure is made available free of charge by Axiom Alternative Investments.

Axiom has implemented and maintains an operational procedure to quickly and efficiently process complaints made by its clients. Any complaint may be sent to the Compliance department by post to Axiom Alternative Investments, 39 avenue Pierre 1er de Serbie 75008 Paris, France. The management company will acknowledge receipt of the complaint within ten working days of the date on which it was received, unless a response has been issued to the client in the intervening period. Except in duly justified exceptional circumstances, a response will be issued to the client within two months of receipt of the complaint.

For France: In the event of an ongoing dispute, the client may contact a mediator, such as the AMF Ombudsman. The address of the AMF Ombudsman is: Autorité des marchés financiers, The AMF Ombudsman, 17 place de la Bourse, 75082 PARIS CEDEX 02, FRANCE. The AMF mediation request form and the Mediation Charter are available online at <http://www.amf-france.org>.

For Luxembourg: In the event of a dispute or in the absence of an acknowledgment of receipt or response within one month of the complaint being made, the client may contact the competent authority, either by post to Commission de Surveillance du Secteur Financier, L-2991 Luxembourg or by email to direction@cssf.lu.

The CSSF dispute resolution request form and relevant texts on the matter are available at <http://www.cssf.lu>.
