Société d'Investissement à Capital Variable

Prospectus

March 2015

AXIOM LUX (the "**Company**") is registered under part I of the Luxembourg law of 17 December 2010 concerning undertakings for collective investment, as may be amended from time to time (the "**Law**"). The Company qualifies as an Undertaking for Collective Investment in Transferable Securities under the Directive 2009/65/EC of the European Parliament and of the Council of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities. The Company is managed by Axiom Alternative Investments on the basis of freedom of services pursuant to chapter 15 of the Law.

The Shares (as such term is defined below) have not been registered under the United States Securities Act of 1933 and may not be offered directly or indirectly in the United States of America (including its territories and possessions) to nationals or residents thereof or to persons normally resident therein, or to any partnership or persons connected thereto unless pursuant to any applicable statute, rule or interpretation available under United States law.

The distribution of this Prospectus in other jurisdictions may also be restricted; persons into whose possession this Prospectus comes are required to inform themselves about and to observe any such restrictions. This document does not constitute an offer by anyone in any jurisdiction in which such offer is not authorised or to any person to whom it is unlawful to make such offer.

Any information or representation given or made by any person which is not contained herein or in any other document which may be available for inspection by the public should be regarded as unauthorised and should accordingly not be relied upon. Neither the delivery of this Prospectus nor the offer, issue or sale of Shares in the Company shall under any circumstances constitute a representation that the information given in this Prospectus is correct as at any time subsequent to the date of this Prospectus.

All references herein to times and hours are to Luxembourg local time.

The members of the Board of Directors are held responsible for all information set out in this Prospectus at the time of its publication.

Potential subscribers to the Company should inform themselves on applicable laws and regulations (i.e. as to the possible tax requirements or foreign exchange control) of the countries of their citizenship, residence or domicile, and which might be relevant to the subscription, purchase, holding, conversion and redemption of Shares.

The KIID will be provided to subscribers before their first subscription and before any application for conversion of shares in accordance with applicable laws and regulations. KIIDs are available on the following website <http://www.axiom-ai.com>.

The Prospectus and the KIID are likely to be updated to take into account creation or liquidation of compartments or significant changes to the structure and the functioning of the Company. It is therefore recommended to subscribers to inform themselves on the latest available documentation of the Company at the registered office of the Company or on the following website: [axiom-ai.com](http://www.axiom-ai.com).

Shareholders are informed that their personal data or information given in the subscription documents or otherwise in connection with an application to subscribe for Shares, as well as details of their shareholding, will be stored in digital form and processed in compliance with the provisions of the Luxembourg law of 2 August 2002 on data protection, as amended. Confidential information concerning the investors will not be divulged unless required to do so by law or regulation. Investors agree that personal details contained in the application form and arising from the business relationship with the Company may be stored, modified or used in any other way, in compliance with the provisions of the Luxembourg law of 2 August 2002 on data protection, as amended, on behalf of the Company for the purpose of administering and developing the business relationship with the investor. To this end, investors accept that data may be transmitted to the Management Company, financial advisers working with the Company, as well as to other companies being appointed to support the business relationship.

In accordance with the provisions of Luxembourg law of 2 August 2002 on data protection, investors are entitled to request information about their personal data at any time as well as to request their correction.

1. PRINCIPAL FEATURES

The following summary is qualified in its entirety by reference to the more detailed information included elsewhere in this Prospectus.

<i>Administrative Agent</i>	CACEIS Bank Luxembourg S.A., acting as registrar and transfer agent, and administrative agent as further described below
<i>Articles</i>	the articles of association of the Company, as amended from time to time
<i>AML Regulations</i>	the Luxembourg law of 27 October 2010 relating to the fight against money-laundering and the financing of terrorism, the law of 19 February 1973 on the sale of medicinal substances and the fight against drug addiction (as amended), the law of 12 November 2004 on the fight against money laundering and terrorist financing (as amended), and associated Grand Ducal, Ministerial and CSSF Regulations and the circulars of the CSSF applicable as amended from time to time
<i>Appendix</i>	an appendix to this Prospectus
<i>Board of Directors</i>	the board of directors of the Company
<i>Business Day</i>	a full business day on which banks are opened in Luxembourg and France
<i>Class(es)</i>	within each Compartment, separate classes of Shares whose assets will be commonly invested but where a specific sales or redemption charge structure, fee structure, minimum investment amount, taxation, distribution policy or other feature may be applied
<i>Compartments</i>	A specific portfolio of assets and liabilities within the Company having its own net asset value and represented by a separate Class or Classes of Shares, which are distinguished mainly by their specific investment policy and objective and/or by the currency in which they are denominated. The specifications of each Compartment are described in the relevant Appendix to this Prospectus.
<i>CSSF</i>	the <i>Commission de Surveillance du Secteur Financier</i> , the Luxembourg authority supervising the financial sector
<i>Cut-off Time</i>	a deadline (as further specified in the Appendices) before which applications for subscription, redemption, or conversion of Shares of any Class in any Compartment must be received by the Administrative Agent in relation to a Valuation Day. For the avoidance of doubt, cut-off times are stated in the Luxembourg time zone (UTC + 1).
<i>Depository</i>	CACEIS Bank Luxembourg S.A., 5, allée Scheffer, L-2520 Luxembourg acting as depository bank, paying agent in the meaning of the Law

<i>Directive</i>	the Directive 2009/65/EC of 13 July 2009 on the coordination of laws, regulations and administrative provisions relating to undertakings for collective investment in transferable securities
<i>Eligible Market</i>	a Regulated Market in an Eligible State
<i>Eligible State</i>	any Member State or any other state in (Eastern and Western) Europe, Asia, Africa, Australia, North and South America and Oceania, as determined by the Board of Directors
<i>EU</i>	the European Union
<i>EUR</i>	the lawful currency of the member states of the European Union that have adopted the single currency in accordance with the Treaty establishing the European Community (signed in Rome on 25 March 1957) as the same may be amended from time to time
<i>FATCA Rules</i>	the regulations relating to information reporting by Foreign financial institutions and other foreign entities released by the IRS on 28th January 2013 (the "FATCA Regulations"), all subsequently published FATCA announcements and as the case may be, the provisions of the intergovernmental agreement (IGA) entered between Luxembourg and the United States and/or between the country of each investor and the US.
<i>FATF</i>	Financial Action Task Force (also referred to as <i>Groupe d'Action Financière</i>)
<i>Feeder Compartment</i>	a Compartment of the Company which investment policy consists in investing at least 85 % of its assets in units/shares in a Master Fund according to article 77 of the Law, by way of derogation from Article 2(2) first indent, Articles 41, 43 and 46, and Article 48(2) third indent of the Law, as further described in the relevant Appendix
<i>Investment Manager</i>	the investment manager appointed by the Management Company (as the case may be) for a specific Compartment as further detailed in the Appendix
<i>Issue Price</i>	the net asset value per relevant Share/ Share Class of a Compartment as determined on the applicable Valuation Day plus the applicable sales commission (if any)
<i>KIID</i>	the key investor information document as defined by the Law and applicable laws and regulations.
<i>Law</i>	the law of 17 December 2010 concerning undertakings for collective investments, as may be amended from time to time
<i>Management Company</i>	Axiom Alternative Investments, a " <i>société anonyme</i> " governed by French laws appointed to act as the management company of the Company pursuant to Chapter 15 of the Law

<i>Master Fund</i>	A UCITS or a sub-fund thereof or a Compartment of the Company, as further described in the relevant Appendix into which a Feeder Compartment invests at least 85 % of its assets and which: (a) has, among its unit-holders, at least one feeder UCITS; (b) is not itself a feeder UCITS; and (c) does not hold units of a feeder UCITS
<i>Member State</i>	a member state as defined in the Law
<i>Reference Currency</i>	the currency specified as such in the relevant Appendix to the Prospectus
<i>Regulated Market</i>	a market within the meaning of Article 4(1) a) of the Law and Article 4(1)14 of Directive 2004/39/EC of the European Parliament and of the Council of 21 April 2004 on markets in financial instruments amending Council Directives 85/611/EEC and 93/6/EEC and Directive 2000/12/EC of the European Parliament and of the Council and repealing Council Directive 93/22/EEC and any other market which is regulated, operates regularly and is recognised and open to the public
<i>Subscription / Redemption Settlement Day</i>	the Business Day on which the consideration for subscription, or redemption is fully paid, which is to occur on a Business Day as further specified in each Appendix
<i>Shares</i>	a share of any Class of any Compartment in the capital of the Company, the details of which being specified in the Appendices
<i>Shareholders</i>	holders of Shares
<i>UCI</i>	undertaking for collective investment within the meaning of the first and second indent of Article 1 (2) of the Directive, whether situated in a Member State or not
<i>UCITS</i>	undertaking for collective investment in transferable securities as defined in the Directive and the Law
<i>Underlying Asset</i>	asset(s) to which Compartment may invest in accordance with its investment policy as described in the relevant Compartment's Appendix
<i>Valuation Day</i>	Business Day on which the net asset value per Share is determined as detailed in the relevant Appendix of each Compartment The Board of Directors may in its absolute discretion amend the Valuation Day for some or all of the Compartments. In such case the Shareholders of the relevant Compartment will be duly informed and the Appendix will be updated accordingly.

2. THE COMPANY

AXIOM LUX is an open-ended collective investment company ("*société d'investissement à capital variable*") established under the laws of the Grand-Duchy of Luxembourg, with an "umbrella" structure comprising different Compartments each may be divided in separate Classes. In accordance with the Law, a subscription of Shares constitutes acceptance of all terms and provisions of the Prospectus and the Articles.

The Company offers investors, within the same investment vehicle, a choice between several Compartments which are distinguished mainly by their specific investment policy and/or by the currency in which they are denominated. The specifications of each Compartment are described in the Appendix.

The assets and liabilities of each Compartment, as further described under 13.5. "Allocation of Assets and Liabilities among the Compartments", shall be segregated from the assets and liabilities of those of the other Compartments, with creditors having recourse only to the assets of the Compartment concerned and where the liabilities cannot be satisfied out of the assets of another Compartment. As between the Shareholders and creditors, each Compartment will be deemed to be a separate entity.

The Board of Directors may, at any time, decide on the creation of further Compartments and in such case, the Appendix will be updated. Each Compartment may have one or more classes of Shares.

3. THE MANAGEMENT COMPANY

The Company has appointed Axiom Alternative Investments, to serve as its designated Management Company in accordance with the Law pursuant to a management company services agreement dated 27 March 2015. Under this agreement, the Management Company provides investment management services, administrative agency, registrar and transfer agency services and marketing, principal distribution and sales services to the Company, subject to the overall supervision and control of the Board of Directors of the Company.

The Management Company was incorporated as a French Private Limited Liability Company (*société à responsabilité limitée*). The Management Company is registered with the Registre de Commerce et des Sociétés de Paris under number RCS 492.625.470. The Management Company is authorised and supervised by the Autorité des Marchés Financiers as a Portfolio Manager under Licence number GP 0600039 since 1/12/2006.

The management company services agreement is concluded for an indefinite period of time and may be terminated by either party upon three months' prior written notice or forthwith by notice in writing in the specific circumstances provided in such agreement.

In consideration of its services, the Management Company is entitled to receive fees as indicated in the relevant Appendix to the Prospectus. These fees shall be calculated based on the net asset value of the Compartment and shall be paid quarterly in arrears.

The Management Company may delegate certain of its duties to third parties. Third parties to whom such functions have been delegated by the Management Company will be remunerated directly by the Company (out of the assets of the relevant Compartment), except as otherwise provided in the relevant Section of the prospectus and the relevant Appendix.

These remunerations shall be detailed in the relevant Appendix.

4. INVESTMENT POLICIES AND RESTRICTIONS

4.1 General Investment Policies for all Compartments

The Board of Directors determines the specific investment policy and investment objective of each Compartment, which are described in more detail in the respective Appendix. The investment objectives of the Compartments will be carried out in compliance with the investment restrictions set forth in section 4.3.

Each Compartment seeks an above-average total investment return, comprised principally of long-term capital appreciation, by investing in a diversified portfolio of transferable securities or in financial derivative instruments as described in respect of the investment objective and policies in the relevant Appendix. There can be no assurance that the investment objectives of any Compartment will be achieved.

In the general pursuit of obtaining an above-average total investment return as may be consistent with the preservation of capital, efficient portfolio management techniques may be employed to the extent permitted by the investment and borrowing restrictions stipulated by the Board of Directors.

The Compartments may from time to time also hold, on an ancillary basis, cash reserves or include other permitted assets with a short remaining maturity, especially in times when rising interest rates are expected.

Investors are invited to refer to the description of the investment policy of each Compartment in the Appendix for details.

The historical performance of the Compartments will be published in the KIID for each Compartment. Past performance is not necessarily indicative of future results.

4.2 Specific Investment Policies for each Compartment

The specific investment policy of each Compartment is described in the Appendix.

4.3 Investment and Borrowing Restrictions

The Articles provide that the Board of Directors shall, based upon the principle of spreading of risks, determine the corporate and investment policy of the Company and the investment and borrowing restrictions applicable, from time to time, to the investments of the Company.

The Board of Directors has decided that the following restrictions shall apply to the investments of the Company and, as the case may be and unless otherwise specified for a Compartment in the Appendix, to the investments of each of the Compartments:

I.

- (1) The Company, for each Compartment, may invest in:
 - (a) transferable securities and money market instruments admitted to or dealt in on an Eligible Market;
 - (b) recently issued transferable securities and money market instruments, provided that the terms of issue include an undertaking that application will be made for admission to official listing on an Eligible Market and such admission is secured within one year of the issue;
 - (c) units of UCITS and/or other UCI, whether situated in a Member State or not, provided that:

- (i) such other UCIs have been authorised under laws which provide that they are subject to supervision considered by the CSSF to be equivalent to that laid down in EU law, and that cooperation between authorities is sufficiently ensured,
 - (ii) the level of protection for unit holders in such other UCIs is equivalent to that provided for unit holders in a UCITS, and in particular that the rules on assets segregation, borrowing, lending, and uncovered sales of transferable securities and money market instruments are equivalent to the requirements of the Directive,
 - (iii) the business of such other UCIs is reported in half-yearly and annual reports to enable an assessment of the assets and liabilities, income and operations over the reporting period,
 - (iv) no more than 10% of the assets of the UCITS or of the other UCIs, whose acquisition is contemplated, can, according to their constitutional documents, in aggregate be invested in units of other UCITS or other UCIs;
- (d) deposits with credit institutions which are repayable on demand or have the right to be withdrawn, and maturing in no more than 12 months, provided that the credit institution has its registered office in a Member State or, if the registered office of the credit institution is situated in a third country, provided that it is subject to prudential rules considered by the Luxembourg regulatory authority as equivalent to those laid down in EU law;
- (e) financial derivative instruments, including equivalent cash-settled instruments, dealt in on an Eligible Market and/or financial derivative instruments dealt in over-the-counter ("**OTC derivatives**"), provided that:
- (i) the underlying consists of instruments covered by this section I. (1), financial indices, interest rates, foreign exchange rates or currencies, in which the Compartments may invest according to their investment objective;
 - (ii) the counterparties to OTC derivative transactions are institutions subject to prudential supervision, and belonging to the categories approved by the CSSF;
 - (iii) the OTC derivatives are subject to reliable and verifiable valuation on a daily basis and can be sold, liquidated or closed by an offsetting transaction at any time at their fair value at the Company's initiative;
- (f) money market instruments other than those dealt in on an Eligible Market, if the issue or the issuer of such instruments are themselves regulated for the purpose of protecting investors and savings, and provided that such instruments are:

- (i) issued or guaranteed by a central, regional or local authority or by a central bank of a Member State, the European Central Bank, the EU or the European Investment Bank, a third country or, in case of a Federal State, by one of the members making up the federation, or by a public international body to which one or more Member States belong, or
 - (ii) issued by an undertaking any securities of which are dealt in on Eligible Markets, or
 - (iii) issued or guaranteed by an establishment subject to prudential supervision, in accordance with criteria defined by EU law, or by an establishment which is subject to and complies with prudential rules considered by the CSSF to be at least as stringent as those laid down by EU law, such as, but not limited to, a credit institution which has its registered office in a country which is an OECD member state and a FATF State.
 - (iv) issued by other bodies belonging to the categories approved by the CSSF provided that investments in such instruments are subject to investor protection equivalent to that laid down in the first, the second or the third indent and provided that the issuer is a company whose capital and reserves amount to at least ten million Euro (10,000,000 EUR) and which presents and publishes its annual accounts in accordance with the fourth directive 78/660/EEC, is an entity which, within a group of companies which includes one or several listed companies, is dedicated to the financing of the group or is an entity which is dedicated to the financing of securitisation vehicles which benefit from a banking liquidity line.
- (2) In addition, the Company may invest a maximum of 10% of the net assets of any Compartment in transferable securities and money market instruments other than those referred to under (1) above.
- (3) Under the conditions and within the limits laid down by the Law, the Company may, to the widest extent permitted by the Regulations (i) create a Compartment qualifying either as a Feeder Compartment or as a Master Fund, (ii) convert any existing Compartment into a Feeder Compartment, or (iii) change the Master Fund of any of its Feeder Compartment.
- (a) A Feeder Compartment shall invest at least 85% of its assets in the units of another Master UCITS.
 - (b) A Feeder Compartment may hold up to 15% of its assets in one or more of the following:
 - (i) ancillary liquid assets in accordance with paragraph II below;
 - (ii) financial derivative instruments, which may be used only for hedging purposes.
 - (c) For the purposes of compliance with paragraph III (1) (c) below, the Feeder Compartment shall calculate its global exposure related to financial derivative instruments by combining its own direct exposure under the second indent of under (b) above with either:

- (i) the Master Fund actual exposure to financial derivative instruments in proportion to the Feeder Compartment investment into the Master Fund; or
- (ii) the Master Fund potential maximum global exposure to financial derivative instruments provided for in the Master Fund management regulations or instruments of incorporation in proportion to the Feeder Compartment investment into the Master Compartment.

II. The Company may hold on an ancillary basis cash.

III.

(1)

- (a) The Company may invest no more than 10% of the net assets of any Compartment in transferable securities and money market instruments issued by the same issuing body.
- (b) The Company may not invest more than 20% of the net assets of any Compartment in deposits made with the same body.
- (c) The risk exposure of a Compartment to a counterparty in an OTC derivative transaction may not exceed 10% of its net assets when the counterparty is a credit institution referred to in I. (1) d) above or 5% of its net assets in other cases.

(2) Moreover, where the Company holds on behalf of a Compartment investment in transferable securities and money market instruments of issuing bodies which individually exceed 5% of the net assets of such Compartment, the total of all such investments must not account for more than 40% of the total net assets of such Compartment.

This limitation does not apply to deposits and OTC derivative transactions made with financial institutions subject to prudential supervision.

Notwithstanding the individual limits laid down in paragraph (1), the Company may not combine for each Compartment:

- (a) investments in transferable securities or money market instruments issued by a single body,
- (b) deposits made with a single body, and/or
- (c) exposures arising from OTC derivative transactions undertaken with a single body
- (d) in excess of 20% of the net assets of each Compartment.

(3) The limit of 10% laid down in sub-paragraph III. (1) (a) above is increased to a maximum of 35% in respect of transferable securities or money market instruments which are issued or guaranteed by a Member State, its local authorities, or by another Eligible State, including the federal agencies of the United States of America, Federal National Mortgage Association and Federal Home Loan Mortgage Corporation, or by public international bodies of which one or more Member States are members.

- (4) The limit of 10% laid down in sub-paragraph III. (1) (a) is increased to 25% for certain bonds when they are issued by a credit institution which has its registered office in a Member State and is subject by law, to special public supervision designed to protect bondholders. In particular, sums deriving from the issue of these bonds must be invested in conformity with the law in assets which, during the whole period of validity of the bonds, are capable of covering claims attaching to the bonds and which, in case of bankruptcy of the issuer, would be used on a priority basis for the repayment of principal and payment of the accrued interest.

If a Compartment invests more than 5% of its net assets in the bonds referred to in this sub-paragraph and issued by one issuer, the total value of such investments may not exceed 80% of the value of the assets of the Compartment.

- (5) The transferable securities and money market instruments referred to in paragraphs (3) and (4) shall not be included in the calculation of the limit of 40% in paragraph (2).

The limits set out in sub-paragraphs (1), (2), (3) and (4) may not be aggregated and, accordingly, investments in transferable securities or money market instruments issued by the same issuing body, in deposits or in derivative instruments effected with the same issuing body may not, in any event, exceed a total of 35% of any Compartment's net assets;

Companies which are part of the same group for the purposes of the establishment of consolidated accounts, as defined in accordance with the seventh Council Directive 83/349/EEC of 13 June 1983 based on the Article 54 (3) (g) of the Treaty on consolidated accounts, as amended, or in accordance with recognised international accounting rules, are regarded as a single body for the purpose of calculating the limits contained in this paragraph III. (1) to (5).

The Company may cumulatively invest up to 20% of the net assets of a Compartment in transferable securities and money market instruments within the same group.

- (6) Notwithstanding the above provisions, the Company is authorised to invest up to 100% of the net assets of any Compartment, in accordance with the principle of risk spreading, in transferable securities and money market instruments issued or guaranteed by a Member State, by its local authorities or agencies, or by another member State of the OECD, G20 countries and Singapore or by public international bodies of which one or more member states of the EU, provided that such Compartment must hold securities from at least six different issues and securities from one issue do not account for more than 30% of the net assets of such Compartment.

IV.

- (1) Without prejudice to the limits laid down in paragraph V., the limits provided in paragraph III. (1) to (5) are raised to a maximum of 20% for investments in shares and/or bonds issued by the same issuing body if the aim of the investment policy of a Compartment is to replicate the composition of a certain stock or bond index which is sufficiently diversified, represents an adequate benchmark for the market to which it refers, is published in an appropriate manner and disclosed in the relevant Compartment's investment policy.
- (2) The limit laid down in paragraph (1) is raised to 35% where this proves to be justified by exceptional market conditions, in particular on Regulated Markets where certain

transferable securities or money market instruments are highly dominant. The investment up to this limit is only permitted for a single issuer.

V.

- (1) The Company may not acquire shares carrying voting rights which should enable it to exercise significant influence over the management of an issuing body.
- (2) The Company may acquire no more than:
 - (a) 10% of the non-voting shares of the same issuer;
 - (b) 10% of the debt securities of the same issuer;
 - (c) 10% of the money market instruments of the same issuer;

These limits under second and third indents may be disregarded at the time of acquisition, if at that time the gross amount of debt securities or of the money market instruments or the net amount of the instruments in issue cannot be calculated.

The provisions of paragraph V. shall not be applicable to transferable securities and money market instruments issued or guaranteed by a Member State or its local authorities or by any other Eligible State, or issued by public international bodies of which one or more member states of the EU are members.

These provisions are also waived as regards shares held by the Company in the capital of a company incorporated in a non-member state of the EU which invests its assets mainly in the securities of issuing bodies having their registered office in that State, where under the legislation of that State, such a holding represents the only way in which the Company can invest in the securities of issuing bodies of that State provided that the investment policy of the company from the non-member state of the EU complies with the limits laid down in paragraph III. (1) to (5), V. (1) and (2) and VI.

VI.

- (1) Unless otherwise provided for in the Appendix to the Prospectus for a Compartment, no more than 10% of a Compartment's net assets may be invested in aggregate in the units of UCITS and/or other UCIs referred to in paragraph I. (1) (c).

In the case the restriction of the above paragraph is not applicable to a specific Compartment as provided in its investment policy, (i) such Compartment may acquire units of UCITS and/or other UCIs referred to in paragraph I. (1) (c) provided that no more than 20% of the Compartment's net assets be invested in the units of a single UCITS or other UCI, and (ii) investments made in units of UCIs other than UCITS may not in aggregate exceed 30% of the net asset of a Compartment.

For the purpose of the application of this investment limit, each Compartment of a UCITS and UCI with multiple Compartments is to be considered as a separate issuer provided that the principle of segregation of the obligations of the various Compartments vis-à-vis third parties is ensured.

- (2) The underlying investments held by the UCITS or other UCIs in which the Company invests do not have to be considered for the purpose of the investment and borrowing restrictions set forth under III. (1) to (5) above.

- (3) When the Company invests in the units of UCITS and/or other UCIs linked to the Company by common management or control, no subscription or redemption fees may be charged to the Company on account of its investment in the units of such other UCITS and/or UCIs, except for any applicable dealing charge payable to the UCITS and/or UCIs.

In the case where a substantial proportion of the net assets are invested in investment funds the Appendix of the relevant Compartment will specify the maximum management fee (excluding any performance fee, if any) charged to the Compartment and each of the UCITS or other UCIs concerned.

- (4) The Company may acquire no more than 25% of the units of the same UCITS or other UCI. This limit may be disregarded at the time of acquisition if at that time the net amount of the units in issue cannot be calculated. In case of a UCITS or other UCI with multiple Compartments, this restriction is applicable by reference to all units issued by the UCITS or other UCI concerned, all Compartments combined.

VII.

- (1) The Company may not borrow for the account of any Compartment amounts in excess of 10% of the net assets of that Compartment, any such borrowings to be from banks and to be effected only on a temporary basis, provided that the Company may acquire foreign currencies by means of back to back loans;

- (2) The Company may not grant loans to or act as guarantor on behalf of third parties.

This restriction shall not prevent the Company from acquiring transferable securities, money market instruments or other financial instruments referred to in I. (1) (c), (e) and (f) which are not fully paid.

- (3) The Company may not carry out uncovered sales of transferable securities, money market instruments or other financial instruments.
- (4) The Company may acquire movable or immovable property which is essential for the direct pursuit of its business.
- (5) The Company may not acquire either precious metals or certificates representing them.

VIII.

- (1) The Company needs not comply with the limits laid down in this chapter when exercising subscription rights attaching to transferable securities or money market instruments which form part of its assets. While ensuring observance of the principle of risk spreading, recently created Compartments may derogate from paragraphs III. (1) to (5), IV. and VI. (1) and (2) for a period of six months following the date of their creation.
- (2) If the limits referred to in paragraph (2) are exceeded for reasons beyond the control of the Company or as a result of the exercise of subscription rights, it must adopt as a priority objective for its sales transactions the remedying of that situation, taking due account of the interest of its Shareholders.

- (3) To the extent that an issuer is a legal entity with multiple Compartments where the assets of the Compartment are exclusively reserved to the investors in such Compartment and to those creditors whose claim has arisen in connection with the creation, operation or liquidation of that Compartment, each Compartment is to be considered as a separate issuer for the purpose of the application of the risk spreading rules set out in paragraphs III. (1) to (5), IV. and VI.
- IX. Each Compartment may, subject to the conditions provided for in the Articles as well as this Prospectus, subscribe, acquire and/or hold securities to be issued or issued by one or more Compartments of the Company without the Company being subject to the requirements of the Law of 10 August 1915 on commercial companies, as amended, with respect to the subscription, acquisition and/or the holding by a company of its own Shares, under the condition however that:
- (1) the target Compartment does not, in turn, invest in the Compartment invested in this target Compartment;
 - (2) no more than 10% of the assets of the target Compartment whose acquisition is contemplated may, pursuant to the Articles be invested in aggregate in units of other target Compartments of the same Company;
 - (3) voting rights, if any, attaching to the relevant securities are suspended for as long as they are held by the Compartment concerned and without prejudice to the appropriate processing in the accounts and the periodic reports; and
 - (4) in any event, for as long as these securities are held by the Company, their value will not be taken into consideration of the calculation of the net assets of the Company for the purposes of verifying the minimum threshold of the net assets imposed by the Law;
 - (5) there is no duplication of management/subscription or repurchase fees between those at the level of the Compartment of the Company having invested in the target Compartment, and this target Compartment.

4.4 Financial Derivative Instruments

As specified in I. (1) (e) above, the Company may in respect of each Compartment invest in financial derivative instruments.

The Company shall ensure that its global exposure relating to derivative instruments does not exceed the total net value of its net assets. The exposure is calculated taking into account the current value of the Underlying Assets, the counterparty risk, future market movements and the time available to liquidate the positions.

Each Compartment may invest in financial derivative instruments within the limits laid down in I. (1) (e), provided that the exposure to the underlying assets does not exceed in aggregate the investment limits laid down in clause III. (1) to (5). When a Compartment invests in index-based financial derivative instruments, these investments do not have to be combined to the limits laid down in III. When a transferable security or money market instrument embeds a derivative, the latter must be taken into account when complying with the requirements of this restriction. When a Compartment qualifies as a Feeder Compartment, that Feeder Compartment shall calculate its global exposure related to financial derivative instruments in accordance with Section 3 I. (3) above.

The Compartments may use financial derivative instruments for investment purposes and for hedging purposes, within the limits of the Law. Under no circumstances shall the use of these instruments cause a Compartment to diverge from its investment policy.

4.5 Use of Techniques and Instruments relating to Transferable Securities and Money Market Instruments

The Company, in order to generate additional revenue for Shareholders, may engage in securities lending transactions subject to complying with the provisions set forth in CSSF Circular 08/356 and the provisions on efficient management portfolio techniques set-forth in CSSF Circular 14/592 and ESMA Guidelines 2014/937.

All revenues arising from efficient portfolio management techniques, net of direct and indirect operational costs/fees, will be returned to the Fund. In particular, fees and cost may be paid to agents of the Management Company and other intermediaries providing services in connection with efficient portfolio management techniques as normal compensation of their services. Such fees may be calculated as a percentage of net revenues earned by the Fund through the use of efficient portfolio management techniques. Information on direct and indirect operational costs and fees that may be incurred in this respect as well as the identity of the entities to which such costs and fees are paid – as well as any relationship they have with the Depositary Bank or Management Company - will be available in the annual report of the Fund, if applicable, and/or disclosed in the Compartment Appendices.

The Company may lend portfolio securities to third persons either directly or through a standardized securities lending system organized by a recognised clearing institution or through a securities lending system organised by a financial institution subject to prudential supervision rules which are considered by the CSSF as equivalent to those laid down in community law and that is specialised in that type of transaction.

The Company must ensure that the volume of the securities lending transactions is kept at an appropriate level in order to be able at all times, to meet its obligation to redeem its own Shares.

The Company must further ensure that it is entitled at any time to request the return of the securities lent or to terminate the securities lending agreement.

Securities lending agreement must not result in a change of the Compartments' investment policies.

The Company will receive collateral in accordance with section 4.6 below.

Such collateral will be maintained at all times in an amount equal to at least 100% of the total valuation of the securities, and for the duration of the loan.

Lending transactions may not be carried out for more than 30 days and in excess of 50% of the total valuation of the portfolio securities. These limits are not applicable if the Company has the right to terminate the lending contract at any time and obtains restitution of the securities lent.

All revenues linked to the securities lending operations will revert to the fund, net of costs and fees to be charged by intermediaries of the Company.

The Company may enter into repurchase agreements which consist in the purchase and sale of securities whereby the terms of the agreement entitle the seller to repurchase from the purchaser the securities at a price and at a time agreed amongst the two parties at the conclusion of the agreement.

The Company may act either as purchaser or as seller in repurchase transactions. Its entering in such agreements is however subject to the following rules:

- The Company may purchase or sell securities in the context of a repurchase agreement only if its counterpart is a highly rated financial institution which are experts in this type of transactions and which are subject to prudential supervision rules considered by the Luxembourg regulatory authority as equivalent to those prescribed by EU law.
- During the lifetime of a repurchase agreement, the Company may not sell the securities which are the object of the agreement either before the repurchase of the securities by the counterparty has been carried out or the repurchase period has expired.

- The Company must ensure to maintain the value of purchased securities subject to a repurchase obligation at a level such that it is able, at any time, to meet its obligations to redeem its own Shares.
- When the Company enters into a reverse repurchase agreement, it must ensure that it is able at any time to recall the full amount of cash or to terminate the reverse repurchase agreement on either an accrued basis or a mark-to-market basis. When the cash is recallable at any time on a mark-to-market basis, the mark-to-market value of the reverse repurchase agreement should be used for the calculation of the net asset value of the Company.
- When the Company enters into a repurchase agreement, it should ensure that it is able at any time to recall any securities subject to the repurchase agreement or to terminate the repurchase agreement into which it has entered.

At the time of this prospectus the Company does not intend to enter in repurchase agreements.

At the date of this Prospectus the Company does not carry out securities lending transactions. If the Company were to use this type of operations, the Prospectus will be updated in accordance with the applicable regulations to specify the counterparty to these securities lending transactions, the policy with regards to cost / direct operational costs and indirect arising from these operations, the exposure obtained through the use of this type of operations and the type and amount of collateral. These information will be stated in the annual report.

4.6 Management of collateral for OTC Derivative transactions and efficient portfolio management techniques

Where the Company enters into OTC Derivative transactions and efficient portfolio management techniques, all collateral used to reduce counterparty risk exposure should comply with the following criteria at all times:

- (a) Liquidity – any collateral received other than cash should be highly liquid and traded on a regulated market or multilateral trading facility with transparent pricing in order that it can be sold quickly at a price that is close to pre-sale valuation. Collateral received should also comply with the provisions of paragraph V above.
- (b) Valuation – collateral received should be valued on at least a daily basis and assets that exhibit high price volatility should not be accepted as collateral unless suitably conservative haircuts are in place, as further described in the Appendix if appropriate.
- (c) Issuer credit quality – collateral received should be of high quality.
- (d) Correlation – the collateral received by the Company must be issued by an entity that is independent from the counterparty and is expected not to display a high correlation with the performance of the counterparty.
- (e) Collateral diversification (asset concentration) – collateral should be sufficiently diversified in terms of country, markets and issuers. The criterion of sufficient diversification with respect to issuer concentration is considered to be respected if the Company receives from a counterparty of efficient portfolio management and OTC Derivative transactions a basket of collateral with a maximum exposure to a given issuer of 20% of its net asset value. When the Company is exposed to different counterparties, the different baskets of collateral should be aggregated to calculate the 20% limit of exposure to a single issuer.
- (f) Risks linked to the management of collateral, such as operational and legal risks, should be identified, managed and mitigated by the risk management process.

- (g) Where there is a title transfer, the collateral received should be held by the Depositary. For other types of collateral arrangement, the collateral can be held by a third party custodian which is subject to prudential supervision, and which is unrelated to the provider of the collateral.
- (h) Collateral received should be capable of being fully enforced by the Company at any time without reference to or approval from the counterparty.
- (i) Non-cash collateral received should not be sold, re-invested or pledged.
- (j) Cash collateral received should only be:
 - (k) placed on deposit with entities prescribed in paragraph I. (1) (d) above;
 - (l) invested in high-quality government bonds;
 - (m) used for the purpose of reverse repo transactions provided the transactions are with credit institutions subject to prudential supervision and the Company is able to recall at any time the full amount of cash on accrued basis;
 - (n) Invested in short-term money market funds.

Re-invested cash collateral should be diversified in accordance with the diversification requirements applicable to non-cash collateral.

4.7 Exercise of Voting Rights

The Company will exercise its voting rights in respect of instruments held by the Company in each Compartment in accordance with the voting policy of the Management Company.

5. RISK-MANAGEMENT PROCESS

The Management Company must employ a risk-management process which enables it to monitor and measure at any time the risk of the positions in its portfolios and their contribution to the overall risk profile of its portfolios.

In accordance with the Law and the applicable regulations, in particular Circular CSSF 11/512, the Management Company uses for each Compartment a risk-management process which enables it to assess the exposure of each Compartment to market, liquidity and counterparty risks, and to all other risks, including operational risks, which are material to that Compartment. The Management Company may use the Value-at-Risk (VaR) or commitment approach to monitor and measure the global exposure as further specified for each Compartment, in the Appendix.

6. RISK WARNINGS

The following is a general description of a number of risks which may affect the value of Shares. See also the section of the relevant Appendix to the Prospectus (if any) for a discussion of additional risks particular to a specific issue of Shares.

The description of the risks made below is not, nor is it intended to be, exhaustive.

Not all risks listed necessarily apply to each issue of Shares, and there may be other considerations that should be taken into account in relation to a particular issue. What factors will be of relevance to a particular Compartment will depend upon a number of interrelated matters including, but not limited to, the nature of the Shares and the Compartment's Investment Policy.

No investment should be made in the Shares until careful consideration of all these factors has been made.

6.1 Introduction

The value of investments and the income from them, and therefore the value of and income from Shares relating to a Compartment can go down as well as up and an investor may not get back the amount the investor invests.

Due to the various commissions and fees which may be payable on the Shares, an investment in Shares should be viewed as medium to long term.

Short or leveraged funds are associated with higher risks and may better be considered as short to medium term investments. An investment in a Compartment should not constitute a substantial proportion of an investment portfolio and may not be appropriate for all investors. Investors should only reach an investment decision after careful consideration with their legal, tax, accounting, financial and other advisers. The legal, regulatory, tax and accounting treatment of the Shares can vary in different jurisdictions. Any descriptions of the Shares set out in the Prospectus, including any Appendix, are for general information purposes only. Investors should recognise that the Shares may decline in value and should be prepared to sustain a total loss of their investment. Risk factors may occur simultaneously and/or may compound each other resulting in an unpredictable effect on the value of the Shares.

6.2 General risks

Valuation of the Shares: the value of a Share will fluctuate as a result of changes in the value of, amongst other things, the Compartment's assets, the Underlying Asset and, where applicable, the financial derivative instruments used to expose the Compartment to the Underlying Asset synthetically.

Valuation of the Underlying Asset and the Compartment's assets: the Compartment's assets, the Underlying Asset or the financial derivative instruments used to expose the Compartment to the Underlying Asset synthetically may be complex and specialist in nature. Valuations for such assets or financial derivative instruments will usually only be available from a limited number of market professionals which frequently act as counterparties to the transactions to be valued. Such valuations are often subjective and there may be substantial differences between any available valuations.

Risks associated with discretionary management: Axiom Alternative Investments has implemented its investment strategies to create well-diversified funds. The securities to which the Compartments are exposed are selected based on qualitative and quantitative processes developed by Axiom Alternative Investments, which help to optimise the level of diversification. It can therefore not be excluded that the Management Company does not choose the most profitable assets.

Exchange rates: an investment in the Shares may directly or indirectly involve exchange rate risk. Because the net asset value of the Compartment will be calculated in its Reference Currency, the performance of an Underlying Asset or of its constituents denominated in a currency other than the Reference Currency will also depend on the exchange rate of such currency. Equally, the currency denomination of any Compartment asset in a currency other than the Reference Currency will involve exchange rate risk for the Compartment.

Interest rates: fluctuations in interest rates of the currency or currencies in which the Shares, the Compartment's assets and/or the Underlying Asset are denominated may affect financing costs and the real value of the Shares.

Inflation: the rate of inflation will affect the actual rate of return on the Shares. An Underlying Asset may reference the rate of inflation.

Yield: returns on Shares may not be directly comparable to the yields which could be earned if any investment were instead made in any Compartment's assets and/or Underlying Asset.

Correlation: the Shares may not correlate perfectly, nor highly, with movements in the value of Compartment's assets and/or the Underlying Asset.

Volatility: the value of the Shares may be affected by market volatility and/or the volatility of the Compartment's assets and/or the Underlying Asset.

Credit Risk: Credit risk involves the risk that an issuer of a bond (or similar money-market instruments) held by the Compartment may default on its obligations to pay interest and repay principal and the Compartment will not recover their investment.

Counterparty risk: Compartment that invests in OTC Derivative may find itself exposed to risk arising from the solvency of its counterparties and from their ability to respect the conditions of these contracts. The Compartment may enter into futures, options and swap contracts including CDS or use derivative techniques, each of which involves the risk that the counterparty will fail to respect its commitments under the terms of each contract.

Liquidity risk: certain types of securities may be difficult to buy or sell, particularly during adverse market conditions, which may affect their value. The fact that the Shares may be listed on a stock exchange is not an assurance of liquidity in the Shares.

Repurchase and Reverse Repurchase Agreement Risk: The use of repurchase and reverse repurchase agreements, if any, by certain Compartments involves certain risks. For example, if the seller of securities to the relevant Compartment under a reverse repurchase agreement defaults on its obligation to repurchase the underlying securities, as a result of its bankruptcy or otherwise, the said Compartment will seek to dispose of such securities, which action could involve costs or delays. If the seller becomes insolvent and subject to liquidation or reorganisation under applicable bankruptcy or other laws, the ability of the relevant Compartment to dispose of the underlying securities may be restricted. Finally, if a seller defaults on its obligation to repurchase securities under a reverse repurchase agreement, the Compartment may suffer a loss to the extent that it is forced to liquidate its position in the market, and proceeds from the sale of the underlying securities are less than the repurchase price agreed to by the defaulting seller.

Leverage: the Compartment's assets, Underlying Asset and the derivative techniques used to expose the Compartment to the Underlying Assets may comprise elements of leverage (or borrowings) which may potentially magnify losses and may result in losses greater than the amount borrowed or invested by the Compartment.

Political factors, emerging market and non-OECD member country assets: the performance of the Shares and/or the possibility to purchase, sell, or repurchase the Shares may be affected by changes in general economic conditions and uncertainties such as political developments, changes in government policies, the imposition of restrictions on the transfer of capital and changes in regulatory requirements. Such risks can be heightened in investments in, or relating to, emerging markets or non-OECD member countries. In addition, local custody services remain underdeveloped in many non-OECD and emerging market countries and there is a heightened transaction and custody risk involved in dealing in such markets. In certain circumstances, a Compartment may not be able to recover or may encounter delays in the recovery of some of its assets. Furthermore, the legal infrastructure and accounting, auditing and reporting standards in emerging markets or non-OECD member countries, may not provide the same degree of investor information or protection as would generally apply to major markets.

Share subscriptions and repurchases: provisions relating to the subscription and repurchase of Shares grant the Company discretion to limit the amount of Shares available for subscription or repurchase on any Business Day and, in conjunction with such limitations, to defer or pro rata such subscription or repurchase. In addition, where requests for subscription or repurchase are received after the Cut-off deadline, there will be a delay between the time of submission of the request and the actual date of subscription or repurchase. Such deferrals or delays may operate to decrease the number of Shares or the repurchase amount to be received.

Listing: there can be no certainty that a listing on any stock exchange applied for by the Company will be achieved and/or maintained or that the conditions of listing will not change. Further, trading in Shares on a stock exchange may be halted pursuant to that stock exchange's rules due to market conditions and investors may not be able to sell their Shares until trading resumes.

Legal and regulatory: the Company must comply with regulatory constraints or changes in the laws affecting it, the Shares, or the investment restrictions, which might require a change in the investment policy and objectives followed by a Compartment. The Compartment's assets, the Underlying Asset and the derivative techniques used to expose the Compartment to the Underlying Assets may also be subject to change in laws or regulations and/or regulatory action which may affect the value of the Shares.

Nominee arrangements: where an investor invests in Shares via the Principal Placement and Distribution Agent, its sub-distribution or private placement agents and/or a nominee or holds interests in Shares through a clearing agent, such Shareholder will typically not appear on the register of Shareholders of the Company and may not therefore be able to exercise voting or other rights available to those persons appearing on the register.

Use of derivatives: as a Compartment whose performance is linked to an Underlying Asset will often invest in derivative instruments or securities which differ from the Underlying Asset, derivative techniques will be used to link the value of the Shares to the performance of the Underlying Asset. While the prudent use of such derivatives techniques can be beneficial, derivatives instruments also involve risks which, in certain cases, can be greater than the risks presented by more traditional investments. There may be transaction costs associated with the use of any such derivatives instruments.

Duplication of costs - The Compartment incurs costs of its own management and administration comprising the fees paid to the Management Company, the Investment Manager (if any), the Depositary, unless otherwise provided hereinafter and other service providers. It should be noted that, in addition, the Compartment incurs similar costs in its capacity as an investor in the funds in which a Compartment invests, which in turn pay similar fees to their manager and other service providers. It is endeavoured to reduce duplication of management charges by negotiating rebates where applicable in favour of the Company with such funds or their managers. Further, the investment strategies and techniques employed by certain funds may involve frequent changes in positions and a consequent portfolio turnover. This may result in brokerage commission expenses which exceed significantly those of the funds of comparable size. The funds may be required to pay performance fees to their manager. Under these arrangements the managers will benefit from the appreciation, including unrealised appreciation of the investments of such funds, but they are not similarly penalised for realised or unrealised losses. As a consequence, the direct and indirect costs borne by the Compartment are likely to represent a higher percentage of the net asset value per Share than would typically be the case with UCITS which invest directly in equity and bond markets (and not through other UCITS/UCI/funds).

Securities lending transactions: In relation to securities lending transactions, investors must notably be aware that (A) if the borrower of securities lent by the company fail to return these there is a risk that the collateral received may realise less than the value of the securities lent out, whether due to inaccurate pricing, adverse market movements, a deterioration in the credit rating of issuers of the collateral, or the illiquidity of the market in which the collateral is traded; that (B) in case of reinvestment of cash collateral, as assets in which cash collateral is reinvested are subject to the same risks as those further described in other sections of this Prospectus in relation to direct investment of the Company, such reinvestment may yield a sum less than the amount of collateral to be returned hence creating leverage with corresponding risks and risk of losses and volatility; and that (C) delays in the return of securities on loans may restrict the ability of the Company to meet delivery obligations under security sales.

6.3 Underlying Asset risks

(a) General

Underlying Asset calculation and substitution: in certain circumstances described in the relevant Appendix, the Underlying Asset may cease to be calculated or published on the basis described or such basis may be altered or the Underlying Asset may be substituted. In certain circumstances such as the discontinuance in the calculation or publication of the Underlying Asset or suspension in the trading of any constituents of the Underlying Asset, it could result in the suspension of trading of the Shares or the requirement for market makers to provide two way prices on the relevant stock exchanges.

Corporate actions: securities comprising an Underlying Asset may be subject to change in the event of corporate actions in respect of those securities.

Tracking error: the following are some of the factors which may result in the value of the Shares varying from the value of the Underlying Asset: investments in assets other than the Underlying Asset may give rise to delays or additional costs and taxes compared to an investment in the Underlying Asset; investment or regulatory constraints may affect the Company but not the Underlying Asset; the fluctuation in value of a Compartment's assets; where applicable, any differences between the maturity date of the Shares and the Maturity Date of the relevant Compartment's assets; and the existence of a cash position held by a Compartment.

No investigation or review of the Underlying Asset(s): none of the Management Company, the Investment Manager (if any) or any of their delegates (if any) or affiliates has performed or will perform any investigation or review of the Underlying Asset on behalf of any prospective investor in the Shares. Any investigation or review made by or on behalf of the Company, the Management Company, the Investment Manager (if any) or any of their delegates (if any) or any of their affiliates is or shall be for their own proprietary investment purposes only.

(b) Certain risks associated with particular Underlying Assets

Certain risks associated with investment in particular Underlying Assets or any securities comprised therein are set out below.

Shares: the value of an investment in Shares will depend on a number of factors including, but not limited to, market and economic conditions, sector, geographical region and political events.

Pooled investment vehicles: alternative investment funds, mutual funds and similar investment vehicles operate through the pooling of investors' assets. Investments are then invested either directly into assets or are invested using a variety of hedging strategies and/or mathematical modelling techniques, alone or in combination, any of which may change over time. Such strategies and/or techniques can be speculative, may not be an effective hedge and may involve substantial risk of loss and limit the opportunity for gain. It may be difficult to obtain valuations of products where such strategies and/or techniques are used and the value of such products may depreciate at a greater rate than other investments. Pooled investment vehicles are often unregulated, make available only limited information about their operations, may incur extensive costs, commissions and brokerage charges, involve substantial fees for investors (which may include fees based on unrealised gains), have no minimum credit standards, employ high risk strategies such as short selling and high levels of leverage and may post collateral in unsegregated third party accounts.

Indices: the compilation and calculation of an index or portfolio will generally be rules based, account for fees and include discretions exercisable by the index provider or investment manager. Methodologies used for certain proprietary indices are designed to ensure that the level of the index reaches a pre-determined level at a specified time. However, this mechanism may have the effect of limiting any gains above that level. Continuous protection or lock-in features designed to provide protection in a falling market may also result in a lower overall performance in a rising market.

Real estate: the risks associated with an indirect investment in real estate include, but are not limited to: the cyclical nature of real estate values, changes in environmental, planning, landlord and tenant, tax or other laws or regulations affecting real property, demographic trends, variations in rental income and increases in interest rates.

Commodities: prices of commodities are influenced by, among other things, various micro and macro-economic factors such as changing supply and demand relationships, weather conditions and other natural phenomena, agricultural, trade, fiscal, monetary, and exchange control programmes and policies of governments (including government intervention in certain markets) and other events.

Structured finance securities: structured finance securities include, without limitation, asset-backed securities and credit-linked securities, which may entail a higher liquidity risk than exposure to sovereign or corporate bonds. Certain specified events and/or the performance of assets referenced by such securities, may affect the value of, or amounts paid on, such securities (which may in each case be zero).

Feeder-Master Structure: Using a "master-feeder" fund structure, in particular the existence of multiple feeder funds investing in the master fund, presents certain risks to the investors. Smaller feeder funds may be materially affected by the actions of larger feeder funds. For example, it is expected that the feeder fund may initially, and perhaps for the life of the Master Fund, hold a larger portion of the net asset value of the outstanding interests of the Master Fund. Consequently, if the feeder fund were to redeem from the Master Fund, the remaining feeder funds, including the Feeder Compartment, may experience higher pro rata operating expenses, thereby producing lower returns, and the Master Fund may become less diverse due to redemption by a larger feeder fund, resulting in increased portfolio risk.

A Feeder Compartment may hold only a minority of the net asset value of the outstanding voting interests of the Master Fund and, consequently, will not be able to control matters that require a vote of the investors of the Master Fund.

Emerging Markets: Underlying investments in emerging markets involve additional risks and special considerations not typically associated with investing in other more established economies or markets. Such risks may include (i) increased risk of nationalisation or expropriation of assets or confiscatory taxation; (ii) greater social, economic and political uncertainty, including war; (iii) higher dependence on exports and the corresponding importance of international trade; (iv) greater volatility, less liquidity and smaller capitalisation of markets; (v) greater volatility in currency exchange rates; (vi) greater risk of inflation; (vii) greater controls on foreign investment and limitations on realisation of investments, repatriation of invested capital and on the ability to exchange local currencies for the Reference Currency; (viii) increased likelihood of governmental involvement in and control over the economy; (ix) governmental decisions to cease support of economic reform programs or to impose centrally planned economies; (x) differences in auditing and financial reporting standards which may result in the unavailability of material information about issuers; (xi) less extensive regulation of the markets; (xii) longer settlement periods for transactions and less reliable clearance and custody arrangements; (xiii) less developed corporate laws regarding fiduciary duties of officers and directors and the protection of investors; and (xiv) certain considerations regarding the maintenance of the Compartment's financial instruments with brokers and securities depositories. Repatriation of investment income, assets and the proceeds of sales by foreign investors may require governmental registration and/or approval in some emerging countries. A Compartment may be adversely affected by delays in or a refusal to grant any required governmental registration or approval for such repatriation or by withholding taxes imposed by emerging market countries on interest or dividends paid on financial instruments held by the Company or gains from the disposition of such financial instruments.

In emerging markets, there is often less government supervision and regulation of business and industry practices, stock exchanges, over-the-counter markets, brokers, dealers, counterparties and issuers than in other more established markets. Any regulatory supervision which is in place may be subject to manipulation or control. Some emerging market countries do not have mature legal systems comparable to those of more developed countries. Moreover, the process of legal and regulatory reform may not be proceeding at the same pace as market developments, which could result in investment risk. Legislation to safeguard the rights of private ownership may not yet be in place in certain areas, and there may be the risk of conflict among local, regional and national requirements. In certain cases, the laws and regulations governing investments in securities may not exist or may be subject to inconsistent or arbitrary appreciation or interpretation. Both the independence of judicial systems and their immunity from economic, political or nationalistic influences remain largely untested in many countries. The Compartments may also encounter difficulties in pursuing legal remedies or in obtaining and enforcing judgments in local courts.

Investments in securities of issuers in emerging markets may be subject to greater risks than investments in securities of issuers from member states of the OECD due to a variety of factors including currency controls and currency exchange rates fluctuations, changes in governmental administration or economic or monetary policy or changed circumstances in dealings between nations, expropriation, confiscatory taxation and potential difficulties in enforcing contractual obligations. There may be less publicly available information about issuers in certain countries and such issuers may not be subject to uniform accounting, auditing and financial reporting standards and requirements comparable to those of most OECD issuers. In certain countries, securities of local issuers are less liquid and more volatile than securities of comparable issuers of more mature economies and subject to lower levels of government supervision than those on the OECD. The investments in such markets may be considered speculative and subject to significant custody and clearance risks and delay in settlement.

Others: underlying Asset(s) may include other assets which involve substantial financial risk such as distressed debt, low quality credit securities, forward contracts and deposits with commodity trading advisors (in connection with their activities).

6.4 Other risks

Potential conflicts of interest: The Management Company, the Investment Manager (if any), their delegates (if any), the sales agents, the Administrative Agent, and the Depositary may from time to time act as management company, investment manager or adviser, sales agent, administrative agent, registrar or custodian in relation to, or be otherwise involved in, other funds or collective investment schemes which have similar investment objectives to those of any Compartment.

The Management Company, the Investment Manager (if any) and their delegates (if any) will enter into all transactions on an arm's length basis. The directors of the Management Company, the directors of the Investment Manager (if any), their delegates (if any) and any affiliate thereof, members, and staff may engage in various business activities other than their business, including providing consulting and other services (including, without limitation, serving as director) to a variety of partnerships, corporations and other entities, not excluding those in which the Company invests.

In the due course of their business, the above persons and entities may have potential conflicts of interest with the Company or Compartment.

Any kind of conflict of interest is to be fully disclosed to the Board of Directors.

In such event, each person and entities will at all times endeavour to comply with its obligations under any agreements to which it is party or by which it is bound in relation to the Company or any Compartment.

The directors of the Management Company, the directors of the Investment Manager (if any), the directors of their delegates (if any) and their members will devote the time and effort necessary and appropriate to the business of the Company.

Although it is aimed to avoid such conflicts of interest, the Management Company, the Investment Manager (if any), their delegates (if any) and their members will attempt to resolve all nonetheless arising conflicts in a manner that is deemed equitable to all parties under the given circumstances so as to serve the best interests of the Company and its Shareholders.

Allocation of shortfalls among Classes of a Compartment: the right of holders of any Class of Shares to participate in the assets of the Company is limited to the assets (if any) of the relevant Compartment and all the assets comprising a Compartment will be available to meet all of the liabilities of the Compartment, regardless of the different amounts stated to be payable on the separate Classes (as set out in the relevant Appendix). For example, if on a winding-up of the Company, the amounts received by the Company under the relevant Compartment's assets (after payment of all fees, expenses and other liabilities which are to be borne by the relevant Compartment) are insufficient to pay the full redemption amount payable in respect of all Classes of Shares of the relevant Compartment, each Class of Shares of the Compartment will rank *pari passu* with each other Class of Shares of the relevant Compartment and the proceeds of the relevant Compartment will be distributed equally amongst the Shareholders of that Compartment *pro rata* to the amount paid up on the Shares held by each Shareholder. The relevant Shareholders will have no further right of payment in respect of their Shares or any claim against any other Compartment or any other assets of the Company. This may mean that the overall return (taking account of any dividends already paid) to Shareholders who hold Shares paying dividends quarterly or more frequently may be higher than the overall return to Shareholders who hold Shares paying dividends annually and that the overall return to Shareholders who hold Shares paying dividends may be higher than the overall return to Shareholders who hold Shares paying no dividends. In practice, cross liability between Classes is only likely to arise where the aggregate amounts payable in respect of any Class exceed the assets of the Compartment notionally allocated to that Class, that is, those amounts (if any) received by the Company under the relevant Compartment's assets (after payment of all fees, expenses and other liabilities which are to be borne by such Compartment) that are intended to Company payments in respect of such Class or are otherwise attributable to that Class. In these circumstances, the remaining assets of the

Compartment notionally allocated to any other Class of the same Compartment may be available to meet such payments and may accordingly not be available to meet any amounts that otherwise would have been payable on such other Class.

Consequences of winding-up proceedings: If the Company fails for any reason to meet its obligations or liabilities, or is unable to pay its debts, a creditor may be entitled to make an application for the winding-up of the Company. The commencement of such proceedings may entitle creditors (including the Swap Counterparty) to terminate contracts with the Company and claim damages for any loss arising from such early termination. The commencement of such proceedings may result in the Company being dissolved at a time and its assets (including the assets of all Compartments) being realised and applied to pay the fees and expenses of the appointed liquidator or other insolvency officer, then in satisfaction of debts preferred by law and then in payment of the Company's liabilities, before any surplus is distributed to the Shareholders of the Company. In the event of proceedings being commenced, the Company may not be able to pay the full amounts anticipated by the relevant Appendix in respect of any Class or Compartments.

7. ISSUE, REDEMPTION AND CONVERSION OF SHARES

Shares in the Company will be issued in the registered form. Fractional entitlements to Shares will be rounded to 5 decimal places.

As further described in each relevant Appendix, the Company may create within each Compartment issue different Classes of Shares whose assets will be commonly invested pursuant to the specific investment policy of the relevant Compartment.

A distinct fee structure, currency of denomination, dividend policy minimum holding amount, eligibility requirements or other specific feature may apply. The Company may notably issue Shares reserved to retail investors and Shares reserved to institutional investors. The range of available Classes and their features are described in the relevant Appendices.

Shares of a Compartment may be listed on the Luxembourg Stock Exchange or any other Regulated Market at the discretion of the Board of Directors and may be cleared through Clearstream Banking or Euroclear or other central depositories.

7.1 Subscription Redemption and Conversion Requests

Unless otherwise provided for a specific Compartment in the relevant Appendix, requests for subscription, redemption and conversion of Shares should be sent to one of the sub-distribution and private placement agents or to the Company at its registered address in Luxembourg. Requests may also be accepted by facsimile transmission, or at the discretion of the Company by other means of telecommunication. An application form can be obtained from the Company.

Unless otherwise specified in the Appendix to the Prospectus for any Compartment, requests for subscriptions, redemptions and conversions from or to any Compartment will be dealt with on the relevant Valuation Day on which they are received, provided they are received prior to the cut-off time specified in the relevant Appendix.

Requests received after such time will be accepted on the next Valuation Day. As a result, requests for the subscription, redemption and conversion of Shares shall be dealt with on an unknown net asset value basis before the determination of the net asset value for that day.

The Company does not permit market timing (as set out in CSSF circular 04/146) or related excessive, short-term trading practices.

The Company has the right to reject any request for the subscription or conversion of Shares from any investor engaging in such practices or suspected of engaging in such practices and to take such further action as it may deem appropriate or necessary.

Subscription, redemption and conversion of Shares of a given Compartment shall be suspended whenever the determination of the net asset value per Share of such Compartment is suspended by the Company.

The Company may enter into an agreement with the distribution agent giving the distribution agent the power to sub delegate the distribution pursuant to which they agree to act as or appoint nominees for investors subscribing for Shares through their facilities. In such capacity the distributor or sales agent may effect subscriptions, conversion and redemptions of Shares in the nominee name on behalf of individual investors and request the registration of such transactions on the register of Shareholders of the Company in the nominee name.

The appointed nominee maintains its own records and provides the investor with individualised information as to its holdings of Shares in the Company. Except where local law or custom prohibits the practice, investors may invest directly in the Company and not avail themselves of a nominee service.

Unless otherwise provided by local law, any Shareholder holding Shares in a nominee account with a distributor has the right to claim, at any time, direct title to such Shares.

7.2 Deferral of Redemptions and Conversion

If the total requests for redemption and conversion out of a Compartment on any Valuation Day exceed 10% of the total value of Shares in issue of that Compartment, the Company may decide that redemption and conversion requests in excess of 10% shall be deferred until the next Valuation Day. On the next Valuation Day, or Valuation Days until completion of the original requests, deferred requests will be dealt with in priority to later requests.

7.3 Settlements

If, on the Settlement Day as determined in the Appendix, banks are not open for business, or an interbank settlement system is not operational, in the country of the currency of the relevant Class, then settlement will be on the next Business Day on which those banks and settlement systems are open.

Confirmation of completed subscriptions, redemptions and conversions will normally be dispatched on the Business Day following the execution of the transaction.

No redemption payment will be deemed made until the original application form and relevant subscription monies have been received from the Shareholder and all the necessary anti-money laundering checks have been completed. Redemption proceeds will be paid on receipt of faxed instructions where such payment is made into the account specified by the Shareholder in the original application form submitted. However, any amendments to the Shareholder's registration details and payment instructions can only be effected upon receipt of original documentation.

7.4 Minimum Subscription and Holding Amounts and Eligibility for Shares

A minimum initial and subsequent subscription amount and minimum holding amounts for each Class may be set forth, as further detailed in the Appendices to the Prospectus. The Company has the discretion, from time to time, to waive or reduce any applicable minimum subscription amounts.

The right to transfer, redeem or convert Shares is subject to compliance with any conditions (including any minimum subscription or holding amounts and eligibility requirements) applicable to the Class from which the redemption or conversion is being made, and also the Class into which the conversion is to be effected.

The Board of Directors may also, at any time, decide to compulsorily redeem all Shares from Shareholders whose holding is less than the minimum holding amount specified in the relevant Appendix to the Prospectus or who fail to satisfy any other applicable eligibility requirements set out above. In such case the Shareholder concerned will receive one month's prior notice so as to be able to increase its holding above such amount or otherwise satisfy the eligibility requirements.

If a redemption or conversion request would result in the amount remaining invested by a Shareholder falling below the minimum holding amount of that Class, such request will be treated as a request to redeem or convert, as appropriate, the Shareholder's total holding in that Class. If the request is to transfer Shares, then that request may be refused by the Company.

The Company may restrict or prevent the ownership of Shares in the Company by any person, firm or corporate body, if in the opinion of the Company such holding (i) may be detrimental to the Company, (ii) if it may result in a breach of any law or regulation, whether Luxembourg or foreign, (iii) if as a result thereof the Company may become exposed to tax disadvantages or other financial disadvantages that it would not have otherwise incurred or (iv) if such person, firm or corporate body would not comply with the eligibility criteria of a given Class of Shares. Such persons, firms or corporate bodies to be determined by the Board of Directors.

If the Company becomes aware that a Shareholder is holding Shares in breach of any law or regulation or otherwise in circumstances having, or which may have, adverse regulatory, tax or fiscal consequences for the Company or the Shareholders or would otherwise be detrimental to the interests of the Company or that the Shareholder has become or is a US Person, the Company may, in its sole discretion, redeem the Shares of the Shareholder. "US Person" shall have the meaning given in Regulation S under the U.S. Securities Act of 1933, as amended, and shall mean any national, citizen or resident of the United States of America or of any of its territories or possessions or areas subject to its jurisdiction or any person who is normally resident therein (including the estate of any such person or corporations or partnerships created or organised therein).

Shareholders are required to notify the Company immediately in the event that they are or become US Persons or hold Shares for the account or benefit of US Persons or hold Shares in breach of any law or regulation or otherwise in circumstances having, or which may have, adverse regulatory, tax or fiscal consequences for the Company or the Shareholders or otherwise be detrimental to the interests of the Company.

Where it appears that a person who should be precluded from holding Shares, either alone or in conjunction with any other person, is a beneficial owner of Shares, the Company may compulsorily redeem all Shares so owned in accordance with the provisions of the Articles.

7.5 Issue of Shares

Subscriptions for Shares can be made in relation to any day that is a Valuation Day for the relevant Compartment. Shares will be allotted at the subscription price of the relevant Class i.e. the net asset value per Share of such Class determined on the applicable Valuation Day for which the request has been accepted plus the applicable sales commission, if any. Any subscription request shall be irrevocable. The net asset value per Share will be rounded up or down to the nearest 1/100.

If any sale commissions applied in relation to any particular Compartment, it will be disclosed in the relevant Appendix to the Prospectus. The Company might be entitled to receive the sale commission (if any).

Failure to make good settlement by the Settlement Day as determined in the Appendix, may result in the Management Company bringing an action against the defaulting investor or its financial intermediary or deducting any costs or losses incurred by the Company against any existing holding of the applicant in the Company.

In all cases any money returnable to the investor will be held by the Company without payment of interest pending receipt of the remittance.

Payment for Shares must be received by the Company in the reference currency of the relevant Class on or before the Subscription Settlement Day mentioned in the relevant Appendix. Requests for subscriptions in any other major freely convertible currency will be accepted.

Investors are advised to refer to the terms and conditions applicable to subscriptions, which may be obtained by contacting the Company.

The Company may also limit the distribution of a given Class or Compartment to specific countries. The Company may also restrict the distribution of the Company's Shares by distributors or agents who have not been approved.

The Company may, in its absolute discretion, delay the acceptance of any subscription for Shares of a Class restricted to institutional investors until such date as it has received sufficient evidence of the qualification of the investor as an institutional investor.

The Company may agree to issue shares as consideration for a contribution in kind of securities, in compliance with the conditions set forth by Luxembourg law, which may in particular provide for the obligation to deliver a valuation report from the auditor of the Company ("réviseur d'entreprises agréé") and provided that such securities comply with the investment objectives and policies of the relevant Compartment.

7.6 Anti-Money Laundering Procedures

Pursuant to international rules and Luxembourg laws and regulations comprising, but not limited to, the Law of 12 November 2004 on the fight against money laundering and financing of terrorism, as amended, CSSF Regulation 12-02 and circulars of the supervising authority, obligations have been imposed on all professionals of the financial sector to prevent the use of undertakings for collective investment for money laundering and financing of terrorism purposes. As a result of such provisions, the registrar agent of a Luxembourg undertaking for collective investment must in principle ascertain the identity of the subscriber as well as potentially of any beneficial owner in accordance with Luxembourg laws and regulations. The registrar agent may require subscribers to provide any document it deems necessary to effect such identification.

Namely, the requests for subscription must be accompanied, in the case of individuals, by a certified copy of the investor's passport or identification card and, in the case of legal entities, by a certified copy of the investor's articles of incorporation and, where applicable, an extract from the commercial register or a copy of such other documents as may be requested as verification of the identity and address of the individual or legal entity.

More generally the Fund and its registrar agent shall be able to require any documentation from subscriber that it deems necessary in order to comply with any law and regulations applicable to the Fund, and in particular, the FATCA Rules.

This identification procedure must be complied with by CACEIS Bank Luxembourg S.A., acting as registrar and transfer agent (or the relevant competent agent of registrar and transfer agent) in the case of direct subscriptions to the Company, and in the case of subscriptions received by the Company from any intermediary resident in a country that does not impose on such intermediary an obligation to identify investors equivalent to that required under AML Regulations.

Investors are requested to communicate forthwith any change in their situation that will prove the information previously submitted to be no longer valid or sufficient, and shall provide the necessary additional information.

In case of delay or failure by a subscriber to provide the documents required, the application for subscription (or, if applicable, for conversion or for redemption) will not be accepted. In the case of a failure to provide the documents and information requested in the context of ensuring compliance of the Fund with FATCA Rules, the Fund may also be entitled to force the redemption of the Shares. Neither the undertakings for collective investment nor the registrar agent have any liability for delays or failure to process deals as a result of the subscriber providing no or only incomplete documentation.

7.7 Redemption of Shares

Requests for the redemption of Shares can be made on any day that is a Valuation Day for the relevant Compartment. Redemptions will be carried out at the redemption price of the relevant Class i.e. the net asset value per Share of such Class determined on the applicable Valuation Day on which the request has been accepted less the applicable redemption commission, if any. Any redemption request shall be irrevocable.

The Company may carry out any authentication procedures that it considers appropriate relating to a redemption request. This aims to mitigate the risk of error and fraud for the Company, its agents or Shareholders. Where it has not been possible to complete any authentication procedures to its satisfaction, the Company may delay the processing of payment instructions until authentication procedures have been satisfied.

This will not affect the Valuation Day on which the redemption request is accepted and the redemption to be applied. The Company shall not be held responsible to the Shareholder or anyone if it delays execution or declines to execute redemption instructions in these circumstances.

Redemption payments will normally be paid in the Reference Currency of the Class by bank transfer within 3 Business Days of the relevant Valuation Day, unless otherwise provided in the relevant Appendix. Neither the Company are responsible for any delays or charges incurred at any receiving bank or settlement system. A Shareholder may request, at its own cost and subject to agreement by the Company that their redemption proceeds be paid in a currency other than the Reference Currency of the relevant Class.

If, in exceptional circumstances, redemption proceeds cannot be paid within the period specified above, payment will be made as soon as reasonably practicable thereafter (not exceeding, however, 10 Business Days) at the redemption price calculated on the relevant Valuation Day, it being understood that the Board of Directors will always ensure the overall liquidity of the Company.

If any redemption charge is applied in relation to any particular Compartment, it will be disclosed in the relevant Appendix to the Prospectus. The Company is entitled to receive the redemption charge (if any).

Shares redeemed by the Company become null and void.

The Company shall have the right, if the Board of Directors so determines, to satisfy payment of the redemption price to any shareholder who agrees, in kind by allocating to the holder investments from the portfolio of assets set up in connection with such class or classes of shares equal in value (calculated in the manner described in Article 11) as of the Valuation Day during the course of a Valuation Day, on which the redemption price is calculated, to the value of the shares to be redeemed. The nature and type of assets to be transferred in such case shall be determined on a fair and reasonable basis and without prejudicing the interests of the other holders of shares of the relevant

class or classes of shares and the valuation used shall be confirmed by a special report of the auditor of the Company. The costs of any such transfers shall be borne by the transferee.

7.8 Conversion of Shares

Subject to any provision under this Prospectus and its Appendix, Shareholders have the right to convert all or part of their Shares of any Class of a Compartment into Shares of another Class of that or another Compartment, by applying for conversion in the same manner as for the subscription and redemption of Shares. Conversions within the Company are permitted provided that the Shareholder satisfies the eligibility requirements and minimum holding amounts set out in the Appendix to the Prospectus and such other conditions applicable to the contemplated Classes.

Procedure for conversion within the Company

Conversion may be requested on a common Valuation Day for the original Class and the contemplated Class. The number of Shares issued upon conversion will be based upon the redemption price of the original Class and the net asset value of the contemplated Class, plus a conversion charge (if any), as disclosed in the relevant Appendix to the Prospectus. The Company is entitled to any charges arising from conversions and any rounding adjustment. Any conversion request shall be irrevocable.

7.9 Transfer of Shares

Subject to the restrictions described herein, Shares are freely transferable and are each entitled to participate equally in the profits and liquidation proceeds attributable to the relevant Class.

The transfer of Shares may normally be carried out by delivery to the relevant distributor, sales agent or the Company of an instrument of transfer in appropriate form. On the receipt of the transfer request, and after reviewing the endorsement(s), signature(s) may be required to be certified by an approved bank, stock broker or public notary.

The right to transfer Shares is subject to the minimum investment and holding requirements as detailed above and in the Appendix.

Shareholders are advised to contact the relevant distributor, sales agent or the Company prior to requesting a transfer to ensure that they have the correct documentation for the transaction.

8. DISTRIBUTION POLICY

The Board of Directors issues distributing Classes of Shares and /or capital appreciation within each Compartment, the description of which will be provided for in the relevant Compartment's Appendix.

With respect to capital appreciation Classes of Shares, the Board of Directors does intend to recommend at the annual general meeting the reinvestment of their net assets. The relevant net income and net capital gains shall increase the Net Asset Value of the relevant Shares (accumulation).

With respect to distributing Classes of Shares, the Board of Directors may decide to distribute interim dividends in the form of cash in the relevant currency of the Class.

No dividend will be distributed if their amount is below the amount of 1,250,000 EUR and will be capitalised.

Dividends may in any case result from a decision of the Shareholders in general meeting, subject to a majority vote of those present or represented and within limits provided by law, and a concurring decision at the same majority in the relevant Compartment.

Dividends unclaimed after five years from the date of declaration will lapse and revert to the Company in the relevant Compartment.

9. MANAGEMENT AND ADMINISTRATION

The Directors of the Company and the Management Company are responsible for its management and supervision including the determination of investment policies.

9.1 Management Company

The Management Company shall at all times act in the best interests of the Shareholders and according to the provisions set forth by the Law, the Prospectus and the Articles.

In fulfilling its responsibilities set forth by the Law and the management company services agreement, the Management Company is permitted to delegate all or a part of its functions and duties to third parties, provided that it retains responsibility and oversight over such delegates. The appointment of third parties is subject to the approval of the Company and the CSSF. The Management Company's liability shall not be affected by the fact that it has delegated its functions and duties to third parties.

The Management Company shall also ensure compliance of the Company with the investment restrictions and oversee the implementation of the investment policy of each Compartment.

The Management Company will receive periodic reports from the Company's service providers in relation to the services which they provide. The Management Company shall also submit its own report to the Board of Directors on a periodic basis and inform the Board of Directors without delay of any non-compliance of the Company with the investment restrictions.

The Management Company may act as the management company of other open-ended collective investment schemes. The names of these other collective investment schemes are available upon request.

For its services, the Management Company shall receive remuneration as further described in the relevant Appendix to the Prospectus.

(a) Conflicts of Interest

For the purpose of identifying the types of conflict of interest that arise in the course of providing services and activities and whose existence may damage the interest of the Company, the Management Company will take into account, by way of minimum criteria, the question of whether the Management Company or a relevant person, or a person directly or indirectly linked by way of control to the Management Company, is in any of the following situations, whether as a result of providing collective portfolio management activities or otherwise:

- (1) the Management Company or that person is likely to make a financial gain, or avoid a financial loss, at the expense of the Company;
- (2) the Management Company or that person has an interest in the outcome of a service or an activity provided to the Company or another client or of a transaction carried out on behalf of the Company or another client or, which is distinct from the Company interest in that outcome;
- (3) the Management Company or that person has a financial or other incentive to favour the interest of another client or group of clients over the interests of the Company;
- (4) the Management Company or that person carries on the same activities for the Company and for another client or clients which are not UCITS; and

- (5) the Management Company or that person receives or will receive from a person other than the Company an inducement in relation to collective portfolio management activities provided to the Company, in the form of monies, goods or services, other than the standard commission or fee for that service.

When identifying any potential types of conflict of interests, the Management Company will take into account

- (1) the interests of the Management Company, including those deriving from its belonging to a group or from the performance of services and activities, the interests of the clients and the duty of the Management Company towards the Company as well as
- (2) the interests of two or more managed UCITS.

The summary description of the strategies referred to in that paragraph will be made available to the investors on request

(b) Best Execution

The Management Company will act in the best interests of the Company when executing decision to deal on behalf of the Company in the context of the management of the Compartment. For that purpose the Management Company will take all reasonable steps to obtain the best possible results for the Company, taking into account price, costs, speed, likelihood of execution and settlement, order size and nature, or any other consideration relevant to the execution of the order (best execution).

The relative importance of such factors will be determined by reference to the following criteria:

- (a) the objectives, investment policy and risks specific to the Company,
- (b) the characteristics of the order.

9.2 Domiciliation Agent

CACEIS Bank Luxembourg acts as the domiciliary agent of the Company. In such capacity, it will be responsible for all corporate agency duties required by Luxembourg law, and in particular for providing and supervising the mailing of statements, reports, notices and other documents to the shareholders.

For its services under the domiciliary agreement CACEIS Bank Luxembourg S.A. shall receive from the Company a remuneration as further described in the relevant Appendix to the Prospectus. In addition the domiciliation agent is entitled to be reimbursed by the Company for its reasonable out-of-pocket expenses and disbursements and to charge transaction fees in relation to the issue, conversion and redemption of shares.

9.3 Administrative Agent

At the date of the present prospectus the Management Company has delegated the administrative functions to CACEIS Bank Luxembourg. With the Company's consent, the Management Company has concluded an agreement (the "**Services Agreement**") appointing CACEIS Bank Luxembourg S.A. as Administrative Agent.

This agreement has been concluded for an indefinite duration and may be terminated by either party in writing with three months' notice.

In its capacity as Administrative Agent, CACEIS Bank Luxembourg S.A. shall notably perform the calculation of the net asset value of units for each existing Class or Compartment of the Company,

management of accounts, the preparation of the annual and semi-annual financial statements and execute all tasks required as central administration.

In its capacity as the transfer and registration agent, CACEIS Bank Luxembourg S.A. shall in particular execute subscription, redemption and conversion applications and keep and maintain the register of Shareholders of the Company. In such capacity it is also responsible for supervising anti-money laundering measures under the AML Regulations. CACEIS Bank Luxembourg S.A. may request documents necessary for identification of investors.

For its services under the Services Agreement CACEIS Bank Luxembourg S.A. shall receive from the Company a remuneration as further described in the relevant Appendix to the Prospectus. In addition the central administrative, registrar and transfer agent is entitled to be reimbursed by the Company for its reasonable out-of-pocket expenses and disbursements and to charge transaction fees in relation to the issue, conversion and redemption of shares.

9.4 Depositary

CACEIS Bank Luxembourg S.A. has been appointed as Depositary of all of the Company's assets, comprising securities, money market instruments, cash and other assets. All securities and other permitted assets in any of the Compartments are to be held by or to the order of the Depositary. It may also entrust the custody of securities and other assets, mainly securities traded abroad, listed on a foreign stock market or accepted by clearing institutions for their transactions, to such institutions or to one or more of its banking correspondents.

Moreover, the Depositary must:

- (1) ensure that the sale, issue, redemption and cancellation of Shares effected by or on behalf of the Company are carried out in accordance with the Law, the Articles and the Prospectus of the Company;
- (2) ensure that in transactions involving the assets of the Company, the consideration is remitted to it within the usual time limits;
- (3) ensure that the income of the Company is applied in accordance with the Articles.

In its capacity as the main payment agent CACEIS Bank Luxembourg S.A. shall, in particular, be responsible for distributions to the Shareholders.

For its services as Depositary, CACEIS Bank Luxembourg S.A. shall receive remuneration from the Company as further described in the relevant Appendix to the Prospectus. In addition the Depositary is entitled to be reimbursed by the Company for its reasonable out-of-pocket expenses and disbursements and for the charges of any correspondents and transaction fees and expenses in relation with the buying and selling of securities and financial instruments.

10. CHARGES & EXPENSES

The Company shall bear the following expenses:

- all taxes which may be payable on the assets, income and expenses chargeable to the Company;
- standard brokerage fees and bank charges originating from the Company's business transactions;
- all fees due to the Board of Directors of the Company;
- all fees due to the Administrative Agent, Domiciliary Agent and the Depositary;

- all fees due to the Management Company
- all fees due to the Auditor;
- all fees due to the legal advisors or similar administrative charges, incurred by the Company, the Management Company and the Depositary for acting on behalf of the Shareholders;
- all reasonable expenses of the Board of Directors of the Company, the Management Company, the Administrative Agent and the Depositary;
- expenses connected with publications and the supply of information to Shareholders, in particular the cost of printing global certificates and proxy forms for general meetings for the Shareholders, the cost of publishing the issue and redemption prices, and also the cost of printing, the distribution of the annual and semi-annual reports, the Prospectus as well as the KIID;
- all expenses involved in registering and maintaining the registration of the Company with all governmental agencies and stock exchanges;
- all expenses incurred in connection with its operation and its management (e.g. insurance and interests) also including all extraordinary and irregular expenses which are normally incurred by the Company.
- All recurring expenses will be charged first against current income, then, should this not suffice, against realised capital gains, and, if necessary, against asset.

Any costs incurred by the Company, which are not attributable to a specific Compartment, will be charged to all Compartments in proportion to their net assets. Each Compartment will be charged with all costs or expenses directly attributable to it.

Management Company Fees

The Management Company is entitled to receive from the Fund the Management Company Fees as further described in the appendices to the Prospectus.

These fees are calculated and accrued on each day and are payable monthly in arrears.

As the case may be, the Management Company may also be entitled to receive a performance fee for each Classes of Shares the amount and characteristics of which will be detailed, if any, in the Compartment Appendices.

Moreover, the Management Company may be entitled to receive fees as normal compensation of its services when providing services in connection with efficient portfolio management techniques, the amount and characteristics of which will be detailed, if any, in the Compartment Appendices.

11. TAXATION

11.1 The Company

Under current law and practice, the Company is not liable to any Luxembourg income tax, nor are dividends paid by the Company liable to any Luxembourg withholding tax.

However, any Class reserved to retail investors is liable in Luxembourg to a "*taxe d'abonnement*" of 0.05% per annum of its net assets, such tax being payable quarterly and calculated on the total net asset value of each Class at the end of the relevant quarter.

Any Class reserved to institutional investors is liable in Luxembourg to a "*taxe d'abonnement*" of 0.01% per annum of their net assets. Such tax being payable quarterly and calculated on the total net asset value of each Class at the end of the relevant quarter.

For Compartments whose exclusive policy is the investment in money market instruments, qualify for the reduced "*taxe d'abonnement*" of 0.01% per annum.

No tax is payable in Luxembourg on realised or unrealised capital appreciation of the assets of the Company. Although the Company's realised capital gains, whether short- or long-term, are not expected to become taxable in another country, the Shareholders must be aware and recognise that such a possibility, though quite remote, is not totally excluded.

The regular income of the Company from some of its securities as well as interest earned on cash deposits in certain countries may be liable to withholding taxes at varying rates, which normally cannot be recovered.

As a result of recent developments in EU law concerning the scope of the VAT exemption for management services rendered to investment funds, VAT on some of the fees paid out of the assets of the Company to remunerate service providers might be applied.

The investment by a Feeder Compartment into a Master Fund has no specific Luxembourg tax impact.

11.2 Shareholders

(a) Taxation of Luxembourg resident shareholders

(i) Individual shareholders

Dividends and other payments derived from the Shares by resident individuals shareholders, who act in the course of the management of either their private wealth or their professional / business activity, are subject to income tax at the progressive ordinary rate with a top effective marginal rate for the year 2013 of 40% per cent for a taxable income of more than EUR 100,000 (class 1 and 1a taxpayers) / EUR 200,000 (class 2 taxpayers, i.e. household of 2 persons). The maximum aggregate income tax rate will thus be of 42.8% (including the solidarity surcharge of 7%) for a taxable income ranging from EUR 100,000 to EUR 150,000 for class 1 and 1a taxpayers (or EUR 200,000 to EUR 300,000 for class 2 taxpayers) and 43.6% (including the solidarity surcharge of 9%) for a taxable income exceeding EUR 150,000 for class 1 and 1a taxpayers (or EUR 300,000 for class 2 taxpayers). Under current Luxembourg tax laws, 50 per cent of the gross amount of dividends received by resident individuals from (i) a fully-taxable Luxembourg resident company limited by share capital (*société de capitaux*), (ii) a company limited by share capital (*société de capitaux*) resident in a State with which Luxembourg has concluded a double tax treaty and liable to a tax corresponding to Luxembourg corporate income tax or (iii) a company resident in a EU Member State and covered by Article 2 of the EU Parent-Subsidiary Directive is exempt from income tax.

A tax credit is as a rule granted for the 15 per cent withholding tax.

Capital gains realised on the disposal of the Shares by resident individual shareholders, who act in the course of the management of their private wealth, are not subject to income tax, unless said capital gains qualify either as speculative gains or as gains on a substantial participation. Capital gains are deemed to be speculative gains and are subject to income tax at ordinary rates if the Shares are disposed of within six months after their acquisition or if their disposal precedes their acquisition. A participation is deemed to be substantial where a resident individual shareholder holds, either alone or together with his spouse/partner and/or minor children, directly or indirectly at any time within the five years preceding the disposal, more than ten per cent of the share capital of the Company. Capital gains realised on a substantial participation more than six months after the acquisition thereof are subject to income tax according to the half-global rate method, (i.e. the average rate applicable to the total income is calculated according to progressive income tax rates and half of the average rate is

applied to the capital gains realised on the substantial participation). A shareholder is also deemed to alienate a substantial participation if he acquired free of charge, within five years preceding the transfer, a participation that was constituting a substantial participation in the hands of the alienator (or the alienators in case of successive transfers free of charge within the same five-year period). A disposal may include a sale, an exchange, a contribution or any other kind of alienation of the Shares.

Capital gains realised on the disposal of the Shares by resident individual shareholders, who act in the course of their professional / business activity, are subject to income tax at ordinary rates. Taxable gains are determined as being the difference between the price for which the Shares have been disposed of and the lower of their cost or book value.

(ii) Luxembourg resident corporate shareholders

Dividends and other payments derived from the Shares by a Luxembourg fully-taxable resident company are subject to corporate income tax and municipal business tax, unless the conditions of the participation exemption regime, as described below, are satisfied.

Should the conditions of the participation exemption not be fulfilled, 50 per cent of the dividends received by a Luxembourg fully-taxable resident company from the Company are exempt from corporate income tax and municipal business tax. A tax credit is as a rule granted for the 15 per cent withholding tax and any excess may be refundable.

Under the participation exemption regime, dividends derived from the Shares by a Luxembourg fully-taxable resident company may be exempt from income tax if cumulatively (i) the shareholder is a Luxembourg resident fully-taxable company and (ii) at the time the dividend is put at the shareholder's disposal, the shareholder has held or commits itself to hold for an uninterrupted period of at least 12 months a Qualified Shareholding in the Company. Liquidation proceeds are assimilated to receive dividends for the purpose of the participation exemption and may be exempt under the same conditions. Shares held through a fiscally transparent entity are considered as being a direct participation proportionally to the percentage held in the net assets of the transparent entity.

Capital gains realised by a Luxembourg fully-taxable resident company on the Shares are subject to income tax at ordinary rates, unless the conditions of the participation exemption regime, as described below, are satisfied. Taxable gains are determined as being the difference between the price for which the Shares have been disposed of and the lower of their cost or book value.

Under the participation exemption regime, capital gains realised on the Shares by a Luxembourg fully-taxable resident company may be exempt from income tax at the level of the shareholder if cumulatively (i) the shareholder is a Luxembourg resident fully-taxable company and (ii) at the time the capital gain is realised, the shareholder has held or commits itself to hold for an uninterrupted period of at least 12 months Shares representing a direct participation (a) in the share capital of the Company of at least ten per cent or (b) of an acquisition price of at least EUR six million. Shares held through a fiscally transparent entity are considered as being a direct participation proportionally to the percentage held in the net assets of the transparent entity.

(iii) Tax exempt shareholders

A shareholder who is either (i) an undertaking for collective investment subject to the amended law of 20 December 2002 or the Law, (ii) a specialised investment fund governed by the law of 13 February 2007, or (iii) a family wealth management company governed by the law of 11 May 2007, is exempt from income tax in Luxembourg. Dividends derived from and capital gains realised on the Shares are thus not subject to income tax in their hands.

(b) Taxation of Luxembourg non-residents shareholders

Non-resident shareholders who have neither a permanent establishment nor a permanent representative in Luxembourg to which or whom the Shares are attributable are generally not liable to any Luxembourg income tax, whether they receive payments of dividends or realise capital gains upon sale of Shares, except for a potential withholding tax (see above) and/or capital gains realised on a substantial participation (see above) (i) before the acquisition or within the first six months of the acquisition thereof or (ii) when the beneficiary was a Luxembourg tax resident for more than 15 years and became a non-resident less than 5 years prior to the realisation of the said capital gains that are subject to income tax in Luxembourg at ordinary rates (subject to the provisions of an applicable double tax treaty).

Dividends received by a Luxembourg permanent establishment or permanent representative, as well as capital gains realised on the Shares, are subject to Luxembourg income tax, unless the conditions of the participation exemption regime are satisfied i.e. if cumulatively (i) the Shares are attributable to a qualified permanent establishment ("**Qualified Permanent Establishment**") and (ii) at the time the dividend is put at the disposal of the Qualified Permanent Establishment, it has held or commits itself to hold for an uninterrupted period of at least 12 months a Qualified Shareholding. A Qualified Permanent Establishment means (a) a Luxembourg permanent establishment of a company covered by Article 2 of the EU Parent-Subsidiary Directive, (b) a Luxembourg permanent establishment of a company limited by share capital (*société de capitaux*) resident in a State having a tax treaty with Luxembourg and (c) a Luxembourg permanent establishment of a company limited by share capital (*société de capitaux*) or a cooperative society (*société coopérative*) resident in the European Economic Area other than a EU Member State. If the conditions of the participation exemption are not fulfilled, 50 per cent of the gross amount of dividends received by a Luxembourg permanent establishment or permanent representative is exempt from income tax. A tax credit is further granted for the 15 per cent withholding tax.

Under the participation exemption regime, capital gains realised on the Shares may be exempt from income tax if cumulatively (i) the Shares are attributable to a Qualified Permanent Establishment and (ii) at the time the capital gain is realised, the Qualified Permanent Establishment has held or commits itself to hold for an uninterrupted period of at least twelve months Shares representing a direct participation in the share capital of the Company (a) of at least ten per cent or (b) of an acquisition price of at least EUR six million.

(c) Inheritance tax and gift tax

Under Luxembourg tax law, where an individual shareholder is a resident of Luxembourg for inheritance tax purposes at the time of his/her death, the Shares are included in his or her taxable basis for inheritance tax purposes. On the contrary, no inheritance tax is levied on the transfer of the Shares upon death of a shareholder in cases where the deceased was not a resident of Luxembourg for inheritance purposes.

(d) EU Savings Directive

The law passed by parliament on 21 June 2005 (the "**Savings Law**") has implemented into Luxembourg law, Council Directive 2003/48/EC on the taxation of savings income in the form of interest payments (referred to as "**Savings Directive**").

Dividends, if any, distributed by a Compartment of the Company will be subject to the Savings Directive if more than 15% of the relevant Compartment's assets are invested in debt claims (as defined in the Savings Law). Proceeds realised by Shareholders on the disposal of Shares will be subject to the Savings Directive if more than 25% of the relevant Compartment's assets are invested in debt claims.

Under the Law payments of interest or similar income made or ascribed by a paying agent established in Luxembourg to or for the immediate benefit of an individual or certain residual entities as defined by the Savings Law, who as a result of an identification procedure implemented by the paying agent are identified as residents or are deemed to be residents of an EU Member State other than Luxembourg, the Swiss Confederation, dependant or associated territories in the Caribbean, the Channel Islands, the Isle of Man, the Principality of Monaco, the Principality of Liechtenstein, the Principality of Andorra and the Republic of San Marino, will be subject to a withholding tax unless the relevant beneficiary has adequately instructed the relevant paying agent in Luxembourg to provide details of the relevant payments of interest or similar income to the fiscal authorities of his/her country of residence or deemed residence or has provided a tax certificate from his/her fiscal authority in the format required by the Law to the relevant paying agent.

Pursuant to the Savings Law, the applicable withholding tax rate is 35%.

On 20 March 2014, the Council of the European Union agreed to adopt the Directive 2014/48/UE which will, inter alia, amend and broaden the scope of the current EU Savings Directive to (i) payments made through certain intermediate structures (whether or not established in a EU Member State) for the ultimate benefit of an European Union resident individual, and (ii) a wider range of income similar to interest. Austria and Luxembourg confirmed that as from 1 January 2015, they will adopt the changes relating to the EU Savings Directive and will provide the required information on interest payments to the tax authorities of other EU Member States under the automatic information exchange which will replace the withholding tax system. Luxembourg, to that effect, adopted the law dated 25 November 2014 abolishing the withholding tax system as from 1 January 2015 and replacing it with the automatic exchange of information. The changes in the EU Savings Directive will have to be transposed into domestic Law before 1 January 2016. Finally, the replacement of the amending EU Savings Directive as from 1 January 2017 by an automatic exchange of information in compliance with the Organisation for Economic Co-operation and Development (OECD) standard is currently discussed by the EU.

The Company reserves the right to reject any application for Shares if the information provided by any prospective investor does not meet the standards required by the Savings Law.

(e) FATCA

General Rules and Legal background

FATCA is part of the U.S. Hiring Incentives to Restore Employment Act. It is designed to prevent U.S. tax payers from avoiding U.S. tax on their income by investing through foreign financial institutions and offshore funds.

FATCA applies to so called Foreign Financial Institutions (FFIs), which notably include certain investment vehicles (“Investment Entities”), among which UCITS.

According to FATCA Rules, FFIs, unless they can rely under ad-hoc lighter or exempted regimes, need to register with the IRS and to report to the IRS certain holdings by/ and payments made to a/ certain U.S. investors b/ certain U.S. controlled foreign entity investor, c/ non U.S. financial institution investors that do not comply with their obligations under FATCA and d/clients that are not able to document clearly their FATCA status.

Moreover, any account that is not properly documented will have to suffer a 30% WHT.

On March 24th 2014, the Luxembourg and U.S. governments entered into a Model I IGA which aims to coordinate and facilitate the reporting obligations under FATCA with other U.S. reporting obligations of Luxembourg financial institutions.

According to the terms of the IGA, Reporting Luxembourg FFIs will have to report to the Luxembourg tax authorities instead of directly to the IRS. Information will be communicated onward by the Luxembourg authorities to the IRS under the general information exchange provisions of the U.S. Luxembourg income tax treaty.

12. GENERAL INFORMATION

12.1 Organisation

The Company is an investment company organised as a *société anonyme* under the laws of the Grand-Duchy of Luxembourg and qualifies as a *société d'investissement à capital variable* (SICAV) subject to Part I of the Law. The Company was initially incorporated on 27 March 2015. The Company is registered with the *Registre de Commerce et des Sociétés, Luxembourg*, under number B196052. The articles of incorporation are in the course of being published in the *Mémorial*. The articles of incorporation have been filed with the *Registre de Commerce et des Sociétés* of Luxembourg.

The minimum capital of the Company required by Luxembourg law shall be 1,250,000 EUR.

12.2 The Shares

Shares will be issued in registered form. Fractional entitlements to Shares will be rounded to 4 decimal places. Subject to the restrictions described herein, Shares in each Compartment are freely transferable and are each entitled to participate equally in the profits and liquidation proceeds attributable to each Class of the relevant Compartment. The rules governing such allocation are set forth under 5. "Allocation of Assets and Liabilities among the Compartments".

The Shares, which are of no par value and which must be fully paid upon issue, carry no preferential or pre-emptive rights and each one is entitled to one vote at all meetings of Shareholders. Shares redeemed by the Company become null and void.

Should the Shareholders, at an annual general meeting, decide any distributions in respect of distribution Shares (if issued) these will be paid within one month of the date of the annual general meeting. Under Luxembourg law, no distribution may be decided as a result of which the net assets of the Company would become less than the minimum provided for under Luxembourg law.

12.3 Meetings

The annual general meeting of Shareholders will be held at the registered office of the Company in Luxembourg on the 20 November of each year at 10 a.m. or, to the extent required by Luxembourg law, and notices will be sent to the holders of registered Shares recorded by the transfer agent in the Share register of the Company by post at least 8 calendar days prior to the meeting at their addresses shown on the register of Shareholders. Such notices will include the agenda and will specify the time and place of the meeting and the conditions of admission. They will also refer to the rules of quorum and majorities required in the Articles of the Company.

Each Share confers the right to one vote. The vote on the payment of a dividend on a particular Class requires a separate majority vote from the meeting of Shareholders of the Class concerned. Any

change in the Articles affecting the rights of a Compartment must be approved by a resolution of both the general meeting of the Company and the Shareholders of the Compartment concerned.

The Management Company draws the investors' attention to the fact that any investor will only be able to fully exercise his investor rights directly against the Company, notably the right to participate in general shareholders' meetings if the investor is registered himself and in his own name in the shareholders' register of the Company. In cases where an investor invests in the Company through an intermediary investing into the Company in his own name but on behalf of the investor, it may not always be possible for the investor to exercise certain shareholder rights directly against the Company. Investors are advised to take advice on their rights.

12.4 Reports and Accounts

Audited annual reports shall be published within 4 months following the end of the accounting year and unaudited semi-annual reports shall be published within 2 months following the period to which they refer. The annual and semi-annual reports shall be made available at the registered offices of the Company, the representatives and paying agents during ordinary office hours. The Company's accounting year ends on the thirty-first of July each year. The first report will be an unaudited semi-annual report published as of 31 January 2016. The first accounting year will end in 31 July 2016. The first audited report shall be published as of 31 July 2016.

The Reference Currency of the Company is the EUR. The aforesaid reports will comprise consolidated accounts of the Company expressed in EUR as well as individual information on each Compartment expressed in the Reference Currency of each Compartment.

12.5 Allocation of assets and liabilities among the Compartments

For the purpose of allocating the assets and liabilities between the Compartments, the Board of Directors has established a pool of assets for each Compartment in the following manner:

- (1) the proceeds from the issue of each Share of each Compartment are to be applied in the books of the Company to the pool of assets established for that Compartment and the assets and liabilities and income and expenditure attributable thereto are applied to such pool subject to the provisions set forth hereafter;
- (2) Where any asset is derived from another asset, such derivative asset is applied in the books of the Company to the same pool as the asset from which it was derived and on each revaluation of an asset, the increase or diminution in value is applied to the relevant pool;
- (3) Where the Company incurs a liability which relates to any asset of a particular pool or to any action taken in connection with an asset of a particular pool, such liability is allocated to the relevant pool;
- (4) in the case where any asset or liability of the Company cannot be considered as being attributable to a particular pool, such asset or liability is allocated to all the pools in equal parts or, if the amounts so justify, pro rata to the net asset values of the relevant Compartments;
- (5) upon the payment of dividends to the holders of Shares in any Compartment, the net asset value of such Compartment shall be reduced by the amount of such dividends.

If there have been created within each Compartment different classes of Shares, the rules shall mutatis mutandis apply for the allocation of assets and liabilities amongst Classes.

12.6 Determination of the net asset value of Shares

The net asset value of Shares of each Compartment shall be expressed in the Reference Currency of the relevant Compartment. The net asset value shall be determined by the Administrative Agent under the Management Company's responsibility on each Valuation Day and on any such day that the Board may decide from time to time by dividing the net assets of the Company attributable to each Compartment by the number of outstanding Shares of that Compartment.

The Administrative Agent determines the net asset value per Share in each Compartment on the Valuation Day as defined in the Appendix. In order to avoid market timing in their units, preventing arbitrage opportunities, where the Compartment is a Feeder Compartment, the Valuation Day shall be the same day as the valuation day of the Master Fund.

The calculation of the net asset value of the Shares of any Compartment and the issue, redemption, and conversion of the Shares of any Compartment may be suspended in the following circumstances, in addition to any circumstances provided for by law:

- during any period (other than ordinary holidays or customary weekend closings) when any market or stock exchange is closed which is the principal market or stock exchange for a significant part of the Compartment's investments, or in which trading is restricted or suspended,
- during any period when an emergency exists as a result of which it is impossible to dispose of investments which constitute a substantial portion of the assets of the Compartment, or it is impossible to transfer money involved in the acquisition or disposal of investments at normal rates of exchange, or it is impossible to fairly determine the value of any assets in the Compartment,
- during any breakdown in the means of communication normally employed in determining the price of any of the Compartment's investments or the current prices on any stock exchange,
- when for any reason beyond the control of the Board of Directors, the prices of any investment held by the Compartment cannot be reasonably, promptly or accurately ascertained,
- during any period when remittance of money which will or may be involved in the purchase or sale of any of the Compartment's investments cannot, in the opinion of the and/or the Board of Directors, be effected at normal rates of exchange; or
- when calculating the net asset value of a UCITS/UCIs in which the Company has invested a substantial portion of the assets of one or more Compartments or one or more classes is suspended or unavailable, or where the issue, redemption or conversion of shares or units of such UCITS or other UCI is suspended or restricted.
- in the event of the publication of the convening notice to a general meeting of Shareholders at which a resolution to wind up or merge the Company or one or more Sub-Fund(s) is to be proposed; or
- during any period when in the opinion of the Directors of the Company there exist circumstances outside the control of the Company where it would be impracticable or unfair towards the Shareholders to continue dealing in Shares of any Sub-Fund of the Company..

Furthermore, a Feeder Compartment shall temporarily suspend the redemption, reimbursement or subscription of its Shares, when its Master Fund temporarily suspends the redemption, reimbursement or subscription of its shares/units, whether this be at its own initiative or at the request of its competent authorities, for a period identical to the period of suspension imposed on the Master Fund.

The value of the assets of each Class of Shares of each Compartment is determined as follows:

- I. The assets of the Company contain the following:
 - (1) all fixed-term deposits, money market instruments, cash in hand or cash expected to be received or cash contributions including interest accrued;
 - (2) all debts which are payable upon presentation as well as all other money claims including claims for purchase price payment not yet fulfilled that arise from the sale of investment fund Shares or other assets;
 - (3) all investment fund shares/units;
 - (4) all dividends and distributions due in favour of the Company, as far as they are known to the Company;
 - (5) all interest accrued on interest-bearing securities that the Company holds, as far as such interest is not contained in the principal claim;
 - (6) all financial rights which arise from the use of derivative instruments;
 - (7) the provisional expenses of the Company, as far as these are not deducted, under the condition that such provisional expenses may be amortised directly from the capital of the Company;
 - (8) all other assets of what type or composition, including prepaid expenses.
- II. The value of such assets is fixed as follows:
 - (1) Investment funds are valued at their net asset value.
 - (2) Units or shares of the Master Fund will be valued at their last determined and available net asset value.
 - (3) Liquid assets and money market instruments are valued at their nominal value plus accrued interest or on the basis of amortised costs.
 - (4) Fixed term deposits are valued at their nominal value plus accrued interest. Fixed term deposits with an original term of more than 30 days can be valued at their yield adjusted price if an arrangement between the Company and the bank, with which the fixed term deposit is invested has been concluded including that the fixed term deposits are terminable at any time and the yield adjusted price corresponds to the realisation value.
 - (5) Commercial papers are valued at their nominal value plus accrued interest. Commercial papers with an original term of more than 90 calendar days can be valued at their yield adjusted price if an arrangement between the Company and the bank, with which the commercial paper is invested has been concluded including that the commercial papers are terminable at any time and the yield adjusted price corresponds to the realisation value.
 - (6) Securities or financial instruments admitted for official listing on a Regulated Market are valued on the basis of the last available price at the time when the valuation is carried out. If the same security is quoted on a Regulated Markets, the quotation on the principal market for this security will be used. If there is no relevant quotation or if the quotations are not representative of the fair value, the evaluation will be made in good faith by the Board of Directors or their delegate.

- (7) Unlisted securities or financial instruments are valued on the basis of their value realisation as determined by the Board of Directors or their delegate using valuation principles which can be examined by the auditor of the Company, in order to reach a proper and fair valuation of the total assets of each Compartment.
- (8) swap are valued at their fair value based on the last known closing price of the underlying security;
- (9) Any other assets are valued on the basis of their probable value realisation as determined by the Board of Directors or their delegate using valuation principles which can be examined by the auditor of the Company, in order to reach a proper and fair valuation of the total assets of each Compartment.
- (10) OTC derivative financial instruments must be value at the «fair value» in accordance with CSSF Circular 08/356.

In the event that it is impossible or incorrect to carry out a valuation in accordance with the above rules owing to particular circumstances, the Board of Directors or their delegate shall be entitled to use other generally recognised valuation principles which can be examined by an auditor, in order to reach a proper valuation of the total assets of each Compartment.

III. The liabilities of the Company contain the following:

- (1) all loans, bills of exchange and other sums due, including deposits of security such as margin accounts, etc. In connection with the use of derivative instruments; and
- (2) all administrative expenses that are due or have been incurred, including the costs of formation and registration at the registration offices as well as legal fees, auditing fees, remuneration and expenses of the members of the Board of Directors, fees payable to the management company, if any, and its service providers, its investment advisers, investment managers, distributors, placing agents, accountants, custodian, domiciliary, registrar and transfer agents, any paying agents and permanent representatives in places of registration, any other agent employed by the Company, fees for legal and auditing services, promotional, printing, reporting and publishing expenses, including the cost of advertising or preparing and printing of sales documents, explanatory memoranda or registration statements, annual and semi-annual reports, taxes or governmental charges, and all other operating expenses, including the cost of buying and selling assets, interest, bank charges and brokerage, postage, telephone and telex.. If the fee rates agreed between the Company and the employed service providers (such as the Management Company, the Domiciliary Agent, Administrative Agent, Depository or Investment Manager (if any)) for such services deviate with regard to individual Classes, the corresponding varying fees shall be charged exclusively to the respective Class; and
- (3) all known liabilities, whether due or not, including dividends that have been declared but not yet been paid; and
- (4) a reasonable sum provided for taxes, calculated as of the day of the valuation as well as other provisions and reserves approved by the Board of Directors; and
- (5) all other liabilities of the Company, of whatever nature, vis-à-vis third parties; however, each Compartment shall be exclusively responsible for all debts, liabilities and obligations attributable to it.

For the purpose of valuing its liabilities, the Company may include all administrative and other expenses of a regular or periodic nature by valuing these for the entire year or any other period and apportioning the resulting amount proportionally to the respective expired period

of time. The method of valuation may only apply to administrative or other expenses which concern all of Shares equally.

IV. For the purpose of valuation within the scope of this chapter, the following applies:

- (1) Shares that are redeemed in accordance with the provisions under “ISSUE, REDEMPTION AND CONVERSION OF SHARES” above shall be treated as existing Shares and shall be posted until immediately after the point in time set by the Board of Directors for carrying out the valuation; from this point in time until the price is paid, they shall be treated as a liability of the Company; and
- (2) All investments, cash in hand and other assets of any fixed assets that are not in the denomination of the Class concerned shall be converted at the exchange rate applicable on the day of the calculation of net asset value, taking into consideration their market value; and
- (3) On every Valuation Day, all purchases and sales of securities which were contracted by the Company on this very Valuation Day must be included in the valuation to the extent possible.

12.7 Merger or Liquidation of Compartments

The Board of Directors may decide to liquidate any Compartment if (i) the net assets of a Compartment or a Class of Shares of such a Compartment or Class of Shares has decreased to an amount determined by the Board of Directors to be the minimum level for such Compartment or Class of Shares to be operated in an economically efficient manner, (ii) the Master Fund of a Feeder Compartment has been liquidated or closed (without prejudice to the below provisions) or (iii) a change in the economic or political situation relating to the Compartment concerned would justify such liquidation or if required by the interests of the Shareholders of any of the Compartments concerned. The decision of the liquidation will be notified to the Shareholders concerned prior to the effective date of the liquidation and the notification will indicate the reasons for, and the procedures of, the liquidation operations. Unless the Board of Directors otherwise decides in the interests of the Shareholders of the Compartment concerned, they may continue to request redemption or conversion of their Shares on the basis of the applicable net asset value, taking into account the estimated liquidation expenses. Assets which could not be distributed to their beneficiaries upon the close of the liquidation of the Compartment will be deposited with the *Caisse de Consignation* on behalf of their beneficiaries.

Under the same circumstances as provided above, the Board of Directors may decide to close down any Compartment by merger into another Compartment or into another UCITS or a compartment thereof (whether established in Luxembourg or another member State or whether such UCITS is incorporated as a company or is a contractual type fund) (the “**new Compartment**”). Such decision will be notified to Shareholders in the same manner as described in the preceding paragraph and, in addition, the notification will contain information in relation to the new Compartment in accordance with the Law and related regulations. Such notification will be made at least 30 calendar days before the last day for requesting the redemption or conversion of the Shares, free of charge.

Termination of a Compartment by compulsory redemption of its Shares or its merger with another Compartment or with another UCITS (whether established in Luxembourg or another member State or whether such UCITS is incorporated as a company or is a contractual type fund), in each case for a reason other than those mentioned in the preceding paragraph, may be effected only upon its prior approval by the Shareholders of the Compartment to be terminated or merged, at a duly convened Compartment’s Shareholders meeting which may be validly held without a quorum and decide by a simple majority of the Shareholders of the relevant Compartment present or represented.

In accordance with the provisions of the Law applying to a Compartment qualifying as Feeder Compartment, the Feeder Compartment shall be liquidated upon the Master Fund being either liquidated, divided into two or more UCITS or merged with another UCITS, unless the CSSF approves either (a) the investment of at least 85 % of the assets of the Feeder Compartment into units of another master Fund, or (b) the Feeder Compartment's conversion into a UCITS which is not a feeder UCITS within the meaning of the Law.

12.8 Liquidation of the Company

The Company is incorporated for an unlimited period and liquidation shall normally be decided upon by an extraordinary general meeting of Shareholders. Such a meeting must be convened by the Board of Directors within 40 calendar days if the net assets of the Company become less than two thirds of the minimum capital required by law. The meeting, for which no quorum shall be required, shall decide on the dissolution by a simple majority of Shares represented at the meeting. If the net assets fall below one fourth of the minimum capital, the dissolution may be resolved by Shareholders holding one fourth of the Shares at the meeting.

Should the Company be liquidated, such liquidation shall be carried out in accordance with the provisions of the Law and which specifies the steps to be taken to enable Shareholders to participate in the liquidation distributions and in this connection provides for deposit in escrow at the Caisse de Consignation in Luxembourg of any such amounts which it has not been possible to distribute to the Shareholders at the close of liquidation. Amounts not claimed within the prescribed period are liable to be forfeited in accordance with the provisions of Luxembourg law. The net liquidation proceeds of each Compartment shall be distributed to the Shareholders of the relevant Compartment in proportion to their respective holdings.

12.9 Complaints Handling

Shareholders of each Compartment of the Company may file complaints free of charge with the Management Company in an official language of their home country.

12.10 Material Contracts

The following material contracts have been entered into:

- (1) An agreement between the Company and Axiom Alternative Investments, pursuant to which the latter acts as Management Company of the Company. This Agreement is entered into for an unlimited period and may be terminated by either party upon three months written notice.
- (2) An agreement between the Company and CACEIS Bank Luxembourg S.A. pursuant to which the latter was appointed as Depositary of the Company. The Agreement is entered into for an unlimited period and may be terminated by either party upon three months' written notice.
- (3) An agreement between the Company, Axiom Alternative Investments and CACEIS Bank Luxembourg S.A. pursuant to which the latter acts as registrar and transfer agent – paying and administrative agent of the Company. The Agreement is entered into for an unlimited period and may be terminated by either party upon three months written notice.
- (4) An information sharing agreement between Axiom Alternative Investments and CACEIS Bank Luxembourg S.A., acting as Depositary of the Company regulating the

flows of information that are necessary to allow CACEIS Bank Luxembourg S.A to perform its functions.

12.11 Documents

Copies of the contracts mentioned above are available for inspection, and the complaints handling procedure may be obtained upon request free of charge during normal office hours at the registered office of the Company in Luxembourg.

Copies of the Articles, the current Prospectus, the KIID for the Compartments, the latest financial reports, the voting policy, the complaints handling procedure as well as the prospectus and annual and half-yearly reports of the Master Funds (if any) are available the website of the Management Company at <http://www.axiom-ai.com>.

APPENDICES TO THE PROSPECTUS – COMPARTMENTS

APPENDIX 1. AXIOM OBLIGATAIRE LUX

<p>Investment policy and objectives</p>	<p>The Compartment is a Feeder Compartment of the class Z shares of Axiom Obligataire, a French Mutual Investment Fund authorised by the <i>Autorité des Marchés Financiers</i> as a UCITS (the “Master Fund”) and will invest at least 85% of its assets in units of the Master Fund. The Compartment may hold up to 15% of its assets in one or more of the following:</p> <ul style="list-style-type: none"> - Ancillary liquid assets in accordance with article 4.3 “<i>Investment and Borrowing Restrictions</i>” point II of the present Prospectus - Financial derivative instruments, which may be used only for hedging purposes, in accordance with article 4.3 “<i>Investment and Borrowing Restrictions</i>” point I, 1), (e), article 4.4 “<i>Financial Derivative Instruments</i>” and article 4.5 “<i>Use of Techniques and Instruments relating to Transferable Securities and Money Market Instruments</i>” of the present Prospectus - Movable and immovable property which is essential for the direct pursuit of its business. <p>The Compartment will invest its assets solely in the class Z shares of the Master Fund.</p> <p>The Compartment will neither invest in asset backed securities nor in mortgage backed securities.</p> <p>The Compartment and the Master Fund are both managed by the Management Company.</p>
<p>Launch date</p>	<p>The Compartment will be launched at a later stage at the discretion of the Board of Directors.</p>
<p>Term</p>	<p>undetermined duration</p>
<p>Reference currency</p>	<p>EUR.</p>
<p>The Master Fund</p>	<p><u>Organisation of the Master Fund</u></p> <p>The Master Fund was launched on July 23, 2009 in the form of a French collective investment fund (Fonds Commun de Placement, FCP) managed by the Management Company.</p> <p>The Master Fund is denominated in Euro.</p> <p>CACEIS BANK France SA – 1-3, Place Valhubert – 75013 Paris has been appointed as depositary bank, agent in charge of centralising subscription and redemption orders and of keeping the unit register of the Master Fund</p> <p>CACEIS FUND ADMINISTRATION – 1-3, Place Valhubert – 75013 Paris has been appointed as delegated fund accountant of the Master Fund.</p> <p>Cabinet PWC Sellam has been appointed as independent auditor of the Master Fund.</p> <p><u>Investment objectives of the Master Fund</u></p> <p>The Master Fund’s objective is to achieve, over a minimum 3-year investment horizon, a return (net of management fees) similar to or greater than that of its benchmark (iBoxx Euro Tier 1 index).</p>

Investment strategy and policy of the Master Fund

The investment process of the Master Fund aims to take advantage of major opportunities in the international bond market.

In order to optimise the portfolio's return, the investment process is organised in several steps:

Step 1: Quality of securities

- The management team defines the criteria and stress situations that are likely to affect the credit risk of each issuer based on the information supplied by companies (reports, press releases, company meetings), independent research and analysis by the research teams from leading investment banks.
- Only securities issued by companies with proven track records, strong market positions and known and measurable competitive advantages are taken into consideration.
- Detailed scenarios and stress tests are prepared with different interest rates and credit spreads, for each credit rating category for the main bond maturities.
- Securities are selected by the portfolio managers based on in-depth analysis of prospectuses.
- The acquisition or disposal of bonds or debt securities is also based on an in-house analysis of each issuer's credit risk.

Step 2: Portfolio construction

- The portfolio is then constructed based on the choices made on risk allocation and securities as outlined above.
- Portfolio construction ensures efficient diversification, made possible by an allocation by type of issuer.
- However, exposure to each sector and/or type of underlying asset may be as high as 100%.
- The portfolio managers may hedge the currency and interest rate risks.

Step 3: Portfolio monitoring

- Regular monitoring of the performance of underlying assets via the publication of statistical data on the securities.
- Systematic monitoring of the trends in each sector (concentration of issuers, regulatory watch).
- Circumstances that are likely to affect the payment of coupons or the repayment of the principal are closely monitored.

The Master Fund is constantly exposed to the interest rate markets of OECD countries, especially those of eurozone countries, the U.K., Switzerland and

the U.S. Exposure to each of these markets may be as high as 100%.

For other OECD countries (excluding those referred to in the paragraph above), the Master Fund's exposure to each of these markets may not exceed 5% of the NAV.

The exposure to non-OECD markets is incidental (below 5%).

The Master Fund is not sector-specific. The selection process may lead to 100% exposure of the Master Fund to a given business sector.

Bonds issued by both public and private sector issuers may be selected.

The acquisition or disposal of bonds or debt securities is based on an in-house analysis of each issuer's credit risk; the acquisition or disposal of a holding is not based exclusively on ratings assigned by rating agencies.

Transferable debt securities and bonds rated below B- by Standard and Poor's, or B3 by Moody's, or B- by Fitch Ratings, or B Low by DBRS (the highest rating will be applied), or a rating considered equivalent by the management company, or which have no rating, shall not exceed 30% of the fund's net asset value.

The Master Fund is managed within a 0 to 10 sensitivity scale (see risk profile – interest rate risk).

Range of sensitivity to interest rates within which the Master Fund is managed: 0 to 10

Range of sensitivity to credit spreads within which the Master Fund is managed: 0 to 10

Currency of denomination of the securities in which the Master Fund is invested: Euro

Currency risk borne by the Master Fund residual due to imperfect hedge

Geographic area of security issuers to which the Master Fund is exposed: OECD countries (all areas): 0-100%

Benchmark

The Master Fund is not managed relative to a benchmark index. However, the Master Fund's performance may be compared retrospectively with that of the iBoxx Euro Tier 1 index.

The iBoxx Euro Tier 1 index follows the performance of bonds in Euro issued by financial companies to compete the Tier 1 rate but excluding the Additional Tier 1 bonds. The additional news about the index and the methodology of iBoxx indexes could be found on www.iboxx.com

Assets used

Equities:

The Master Fund's exposure to equity risk may not exceed 10%.

Bonds and debt securities:

The Master Fund's shall invest in bonds issued by sovereign states, industrial, commercial and financial companies, as well as convertible bonds, shares or debt securities. All financial instruments may be fixed-, variable- and/or adjustable-rate securities. These securities, issued by international issuers, may be secured, unsecured or subordinated.

Money market instruments:

During periods when the investment strategy leads the management team to trim the Master Fund's exposure to bonds and/or other debt securities in order to attain the investment objective, the Master Fund may be exposed up to 100% to treasury bills, certificates of deposit and euro commercial paper. These financial instruments may also be used on an incidental basis as cash investments.

Shares or units from other UCITS:

The exposure to funds classified as "bond and/or money market", which may not exceed 10%, will be aimed at helping to achieve the Master Fund's objective. On an incidental basis, the Master Fund's may also invest its cash in money market funds.

In order to deliver the target investment return, up to 10% of the Master Fund's assets may be invested in French debt investment funds (FCCs) or their foreign equivalent.

The Master Fund may be invested in French regulated funds or coordinated European regulated funds.

Securitisation

On an incidental basis, the Master Fund may also be invested in securitised products via the UCITS in which it invests.

Derivative instruments

For hedging or exposure purposes, the Master Fund may trade any futures or options provided that their underlying assets have a direct financial relationship or correlation with an asset held in the portfolio.

Types of markets where the Master Fund is invested:

- regulated: yes
- organised: yes
- OTC: yes

Risks to which the manager seeks exposure:

- equity: yes (for hedging purposes)
- interest rate: yes
- currency: yes
- credit: yes
- index: yes (interest rates)

Purpose of the investments:

- hedging: yes
- exposure: yes
- arbitrage: no

Types of instruments used:

- futures: yes
- options: yes
- swaps: yes
- currency forwards: yes
- credit derivatives: yes, CDS

Shares of the Master Fund denominated in USD, in CHF and in GBP, will be systematically hedged against the risk of fluctuation in the exchange rate between such currencies and the Euro. The manager will use financial forwards in an effort to seek systematic and comprehensive hedging. This hedge will be ensured through financial instruments having a minimum impact on other shares, most of these being currency forwards.

Securities with embedded derivatives

The Master Fund will not be invested in securities with embedded derivatives, such as the following:

- Convertible bonds
- Warrants
- EMTN
- CLN

Deposits

The Master Fund may make deposits limited to 20% of its NAV and for a maximum 12-months duration, with one or several European credit institutions.

Cash borrowings

Under normal operating conditions, the Master Fund may also have a temporary debt balance and may use cash borrowings up to 10% of its NAV.

Securities financing transactions

Types of securities financing transactions:

- repurchase agreements and reverse repurchase agreements pursuant to the French Monetary Code: yes
- security lending and borrowing operations pursuant to the French Monetary Code: yes

Purpose and impact of these transactions, which may be solely intended to achieve the investment objective:

- cash management: yes
- fund's income optimisation: yes
- contribution to the fund's leverage: no
- other

Income from these transactions: refer to the Fees and commissions section for more information of the Master Fund's Prospectus.

The Master Fund may enter into securities financing transactions up to 100% of its assets.

The Master Fund's commitments on derivatives, embedded derivatives and repurchase agreements and reverse repurchase agreements may not exceed 100% of its assets.

The Master Fund's commitments on and exposure to physical securities may not exceed 200% of its assets.

Fees and expenses of the Master Fund

Management fees, Administration Fee & Depositary Fee :

Class Z shares: max. 0.05 % p.a. (incl. taxes)

Transaction fees charged by the Management Company:

Depending on the transaction market place: between €17.97 (incl. taxes) and €179.40 (incl. taxes)

Performance fees :

None for Class Z shares

The Compartment will not pay any subscription or redemption fees while investing in Class Z of the Master Fund.

CACEIS FUND ADMINISTRATION – 1-3, Place Valhubert – 75013 Paris has been appointed as delegated fund accountant of the Master Fund.</p> <p>Cabinet PWC Sellam has been appointed as independent auditor of the Master Fund.</p>

Investment objectives of the Master Fund

The objective of the Master Fund is to achieve, over a minimum 5-year investment horizon, a return (net of management fees) similar to or greater than that of its benchmark (Stoxx Europe 600 Banks Net Return).

Investment strategy and policy of the Master Fund

The investment process of the Master Fund aims to take advantage of major opportunities on the European bank and insurance stock market by selecting securities with a growth potential in line with the investment objective.

In order to optimise the portfolio's return, the investment process is based on: a "top down" approach taking into account economic conditions (key interest rates, long term rates, money market rates, inflation, European and global economic growth, etc.), banking and insurance regulations; a "bottom up" approach which is organised in three steps:

Step 1: Fundamental analysis

Based on fundamental criteria such as solvency, profitability, management quality or dividend policy, the management team assesses the outlook for the price of a specific issuer's stock over a period in line with the investment objectives.

Step 2: Portfolio construction

- The portfolio is then constructed based on the choices made on risk allocation and issuers as outlined above.
- Portfolio construction ensures efficient diversification, made possible by an allocation by type of issuer and sub-sector: universal banking, retail banking, investment banking, private banking, investment management firms, specialised credit institutions; general insurance companies, companies specialising in life insurance, property and casualty insurance, reinsurance, etc.
- The portfolio managers may hedge currency and interest rate risks. They may use swaps to hedge equity risk.

Step 3: Portfolio monitoring

- Regular monitoring of the performance of underlying assets;
- Systematic monitoring of the trends in each sector and sub-sector (concentration of issuers, regulatory watch).
- Circumstances that are likely to affect the payment of dividends are closely monitored.

Benchmark index

The Master Fund is not managed relative to a benchmark index. However, the Master Fund's performance may be compared retrospectively with that of the Stoxx Europe 600 Banks Net Return index (Bloomberg code SX7R) over an investment horizon of more than 5 years.

This index is composed of European bank stocks. The base currency of the index is the Euro and it assumes reinvestment of any dividends. Further information is available from the website <http://www.stoxx.com>

Investors should bear in mind that the Master Fund's asset allocation may

differ substantially from that of its benchmark.

Assets used

Equities:

The Master Fund is constantly exposed to equity markets. More specifically, a minimum 75% of the Master Fund's net assets will be constantly invested in issuers from the financial industry of any market capitalisation domiciled in any EU member state or in shares or units from UCITS eligible for the PEA (equity savings scheme). Investments in stocks from issuers domiciled outside the European Union may not exceed 25% of the Master Fund's net assets.

Shares or units from other UCITS:

The exposure to funds classified as "bond and/or money market", which may not exceed 10%, will be aimed at helping to achieve the Master Fund's objective. On an incidental basis, the Master Fund may also invest its cash in money market funds.

In order to deliver the target investment return, the Master Fund may also invest up to 10% of its assets in French debt investment funds (FCCs) or their foreign equivalent.

The Master Fund may invest in French- or European regulated UCITS.

Debt securities and money market instruments:

During periods when the investment strategy leads the management team to trim the Master Fund's exposure to stocks in order to attain the investment objective, the Master Fund may be exposed up to treasury bills, certificates of deposit and euro commercial paper. These financial instruments may also be used on an incidental basis as cash investments.

The Master Fund may also invest in bonds, debt securities and other money market instruments issued in OECD countries (these may be fixed-, variable- or adjustable-rate securities, or indexed securities). These instruments may be government debt securities or private-sector securities. There is no predefined allocation between government and private-sector debt. These securities belong to the Investment Grade category corresponding to a minimum rating of BBB-/Baa3 in application of Basel rules. According to these regulations, in case of multiple ratings by the main existing rating agencies (currently Standard&Poor's, Moody's, Fitch...), the Management Company should apply the lower of the two highest grades. If the security is only rated by two agencies, the lower grade will be applied. Finally, if the security is only rated by one agency, its grade is applied. Some of these securities may have speculative characteristics. Investments in non-listed securities may not exceed 10% of the Master Fund's net assets.

Other instruments

As part of its investment strategy, the Master Fund may invest in non-listed securities of companies specialising in any sub-sector of the financial industry. Such instruments may be used by the Master Fund as a way to invest in sub-sectors of the financial industry where companies are not listed yet.

This type of instruments may not exceed 10% of the Master Fund's net

assets.

Derivative instruments

For hedging or exposure purposes, the Master Fund may trade any futures or options provided that their underlying assets have a direct financial relationship or correlation with an asset held in the portfolio.

Types of markets where the fund is invested:

- regulated: yes
- organised: yes
- OTC: yes

Risks to which the manager seeks exposure:

- equity: yes
- interest rate: yes
- currency: yes
- credit: yes
- index: yes

Purpose of the investments:

- hedging: yes
- exposure: yes
- arbitrage: no

Types of instruments used:

- futures: yes
- options: yes
- swaps: yes
- currency forwards: yes
- credit derivatives: yes, CDS

Exposure to all these markets may not exceed 100% of the net assets.

BC shares denominated in USD will be systematically hedged against the risk of fluctuation in the exchange rate between the USD and the Euro. The manager will use financial forwards in an effort to seek systematic and comprehensive hedging. This hedge will be primarily ensured through currency forwards.

M shares denominated in CHF will be systematically hedged against the risk of fluctuation in the exchange rate between the CHF and the Euro. The manager will use financial forwards in an effort to seek systematic and comprehensive hedging. This hedge will be primarily ensured through currency forwards.

Securities with embedded derivatives

Up to 25% of the Master Fund's net assets may be invested in securities with embedded derivatives.

Deposits

The Master Fund may make deposits limited to 20% of its NAV and for a

maximum 12-months duration, with one or several European credit institutions.

Cash borrowings

Under normal operating conditions, the Master Fund may also have a temporary debt balance and may use cash borrowings up to 10% of its NAV.

Securities financing transactions

For cash management or income optimisation purposes or in order to invest collaterals received within the framework of securities lending, up to 100% of the Master Fund's net assets may be used for:

- repurchase agreements and reverse repurchase agreements;
- securities lending

These transactions are not intended to generate leverage. Securities under repurchase agreements may not be temporarily sold as part of securities financing transactions. Part of the income from securities financing transactions where securities are either lent or under repurchase agreements is reverted to the Master Fund. Any income from reverse repurchase agreements is transferred to the Master Fund.

Fees and expenses of the Master Fund

Management fees, Administration Fee & Depositary Fee :

Class Z shares: max. 0.05 % p.a. (incl. taxes)

Transaction fees charged by the Management Company:

Depending on the transaction market place: between €17.97 (incl. taxes) and €179.40 (incl. taxes)

Performance fees :

None for Class Z shares

The Compartment will not pay any subscription or redemption fees while investing in Class Z of the Master Fund.

Risk profile of the Master Fund

The Master Fund will be mainly invested in financial instruments selected by the Management Company. These instruments will be subject to the inherent volatility of financial markets.

The Master Fund is a UCITS classified in the "international stocks" category.

The Master Fund is most suitable for investors who have an investment horizon longer than five years.

Availability of prospectus of the Master Fund

The Master Fund's prospectus, latest annual and semi-annual reports are available within a week upon request at the registered officer of the Company.

For further information regarding the fees and expenses paid by the Master Fund, reference is made of the Master Fund's prospectus, as well as the annual report of the Master Fund.

These documents are also available on the website: [www. www.axiom-ai.com](http://www.axiom-ai.com)
